PILOTLESS PLANE PILES UP—This Civil Air Patrol airplane crashed on Route 159, about three miles south of Kingston at about 1:45 p.m. Saturday, after causing an air-filling rumpus over southern Ohio for about two hours. The plane took off minus a pilot from Rising Sun, Ind. and came down on the highway after running out of

gas. During its two-hour ride, the plane was chased and tracked by Air Force ships from Lockbourne Air Force Base. The plane took off from the Indiana airport after the erstwhile pilot flipped the propeller, with no chocks in front of the wheels and the throttle on full blast. (Photo by Dwight Radcliff)

Holiday Traffic Toll Still Climbs

Safety Council Notes Homeward Rush Data

By THE ASSOCIATED PRESS

The nation's traffic death toll during the long New Year weekend, showing sharp upward trends at the start and the close, edged toward the preholiday estimate of 390 today.

As of about noon today, the national traffic toll stood at 376 dead. In addition, there were 60 killed by fires and 112 in miscellaneous accidents for a total of 548.

Ohio's contribution to the death list: 17 in traffic, two in fires, 11 miscellaneous for a total of 30.

The final count awaited delayed reports of accident deaths which occurred up to midnight Sunday. It started at 6 o'clock (local time) New Year's Eve.

Although it appeared possible the final toll would reach the National Safety Council's estimate, indications were the final toll would be under the record traffic toll of 409 for a New Year holiday period. That mark was posted in a four-day period at the end of 1956 and the start of 1957.

The Council noted the swift pace of deaths on the highways Sunday as the homeward rush of motorists reached the peak of travel. The upturn was similar to the toll on New Year's Day after a relatively safe start.

Weather was a big factor in the count. Many accidents were attributed to the snow and ice-slicked highways. But the hazardous driving conditions also resulted in keeping many Sunday drivers at home. The bitter cold weather throughout many areas also was responsible for the lighter traffic.

The New Year traffic toll was far under the slaughter on the highways during the four-day Christmas holiday period. The Christmas accident deaths included 594 in traffic, 93 in fires and 97 in miscellaneous type mishaps, an over-all total of 784.

Modern Voting Facilities Cited

COLUMBUS, Ohio (AP)—Biggest problem of Ohio's election officials is to keep voting facilities tuned to a rapidly increasing and shifting population.

That was what Secretary of State Ted W. Brown told the 10th annual convention of the Ohio Assn. of Election Officials opening here today. Awards will be made to outstanding election boards at a banquet Tuesday. The convention closes tonight.

"While every effort must be made to accommodate the voter," Brown said, "the public must be made to understand that expansion of voting facilities is paid by the taxpayer."

"To meet the growing and changing conditions, and still not get our costs out of proportion, warrants our diligent care as public officials."

Yanks To Get Shots

BONN, Germany (AP)—All U.S. Embassy personnel have been asked to get smallpox booster shots as a result of the outbreak of the disease in West Germany.

Russia's 'Mechta' Nears Solar Orbit

MOSCOW (AP)—The Soviet Union's cosmic rocket continued its headlong dash toward a solar orbit today in man's greatest conquest of space.

Its radio signals ceased as the 1½-ton device—now called Mechta (dream)—went past an estimated 370,960 miles in its plunge away from the earth. It had then been in flight 62 hours.

Resources for feeding the radio equipment had become exhausted, the Soviet news agency Tass said.

"The program of observations and scientific investigations of the rocket has been completed," an announcement said.

This predicted the rocket will finally enter an orbit around the sun Wednesday or Thursday. Mechta is due to take 15 months to go around the sun, traveling elliptically.

The Russians calculate this orbit would have a maximum diameter of 214 million miles. The rocket would get no nearer the sun than 91½ million miles. The sun averages 93 million miles from earth.

The name Mechta was applied to the rocket today by Pravda the Communist party newspaper. When it was announced last Saturday that the rocket was headed toward the moon, it was called Lunik, a combination of Luna (moon) and Sputnik.

Scientists here figured that it was traveling at a maximum speed of 1.52 miles a second when it passed the moon Sunday at a distance of 4,700 miles.

Results of radio transmissions between the rocket and ground stations will be published as soon as they are analyzed, Tass said.

The 62 hours of radio communication enabled observations to be made of the rocket's movements,

and on the work of the scientific instruments aboard.

The actual number of days that will be required for the solar orbit will be 447, scientists said. This is 82 more than it takes the earth to go around the sun.

Dr. G. M. Clemence, scientific director of the U. S. Naval Observatory in Washington, said that some time in March or February the earth will pass between the rocket and the sun.

The earth has an elliptical orbit around the sun, the same as the rocket will have, but it is tighter. It takes the earth only 12 months to make the full swing.

Soviet newspapers Sunday were filled with comments on the performance and predictions of new space ventures. But there were no further details on the rocket itself, its launching site or power.

On a Moscow radio broadcast Prof. Boris Kukarkin, deputy chairman of the Soviet Astronomical Council, mentioned the possibility of a space ship soaring outside the entire solar system.

Kukarkin said that higher speeds than those needed by Russia's space rocket to escape earth's gravity are probably attainable in the near future.

"Similar space ships will be capable of traveling beyond the boundaries of our solar system," he declared.

(In Nuernberg, Germany, Prof. Hermann Oberth, who recently resigned from a post as adviser to the U. S. Army's missile program, said the Soviets possibly wanted to hit the moon with their rocket but "slyly covered up" an error in calculation when they established that it would bypass the moon and continue its travel in space.)

(He said he did not think the Russians were more than two or three months ahead of the United States in rocketry.)

Ohio's Weather To Ease Tuesday

By THE ASSOCIATED PRESS

A paralyzing cold front moving through Ohio today sent temperatures below the zero mark in all but a small section of the southern part of the state.

The front, part of a gigantic arctic air mass that brought most of the nation its coldest weather so far this season, is centered over the Ohio Valley. The air mass is drifting eastward, though, the Weather Bureau said, and should pass out of the state by Tuesday, causing some slight warming.

At 7 a.m., the Weather Bureau in Columbus reported that Dayton, with 9 degrees below, appeared to be the coldest spot in the state. Columbus, Cincinnati and Toledo all recorded 6 below, Findlay 7, Zanesville and Circleville 5, Chillicothe 1, Chesapeake zero, Marietta 2, and Youngstown 3 below.

The Cleveland Weather Bureau reported the temperature there had dropped to 7 below at 7:30 a. m., the lowest reading of the winter and the second coldest Jan. 5 on record. The coldest in Cleveland was 13 degrees below zero Jan. 5, 1884.

In Dayton, the body of 54-year-old Edwin Austin was found on the front porch of his home this morning. The coroner said the man may have frozen to death in the sub-zero temperature after tripping and falling.

Ohio's highways are generally snow-covered north of a line marked by Greenville, Springfield,

Bellefontaine, Bucyrus, Canton and Youngstown.

They are generally normal south of a line marked by Hillsboro, Circleville, Logan and Marietta.

In most of the northern counties, particularly in the northeast near Lake Erie, snow flurries were falling and settling into drifts here and there where winds were strongest. Roads throughout the northern part of the state were hazardous, the Weather Bureau said.

Elsewhere in the state, skies were clear and a bright sunny day was forecast for today. Another bright day is on tap for Tuesday but temperatures are expected to climb only slightly.

Bitter cold clung to wide areas in the midcontinent and sections of the Rockies.

The cold and snow was blamed for at least 15 deaths. At least three persons were found frozen to death. Others died from over-exertion while shoveling snow and in traffic accidents on ice-slicked highways.

Farmers in Florida as far south as Ocala, in the northcentral region, got their smudgepots ready when they heard the cold wave forecast. Southeast Florida basked in summer-like climes, with another day of 70-degree weather in sight.

Most of the Deep South braced for below freezing weather.

Schools closed in some Texas communities.

Industry was hit in Texas and

U.S., Canada Officials Set Trade Parley

OTTAWA (AP)—Top U.S. and Canadian officials open annual talks tonight aimed at reducing friction that could hurt their seven billion dollars worth of cross-border trade, a world high for any two countries.

Secretary of State Dulles was to lead the group of high U.S. officials due at nearby Uplands Airport this afternoon for meetings with Canadian officials headed by Finance Minister Donald M. Fleming.

Dulles and his companions likely are after assurances that Canada won't be using her new tough antidumping laws to discriminate against U.S. textiles and other exports.

The United States has already lodged formal protests, charging that the new laws enacted last year are a breach of Canada's international trade obligations. Canada's conservative administration has rejected the protests, arguing the legislation is fair and reasonable.

With Canada holding a strong bargaining lever in the antidumping laws, the four-man Canadian ministerial team is likely to seek American concessions in oil, lead and zinc, and wheat.

The officials are meeting as members of the cabinet-level Joint Trade and Foreign Affairs Committee, set up in 1953 as an annual conference in attempts to head off trade issues that could lead to friction between the two countries.

The talks are to open after dinner tonight. The American delegation will return to Washington Tuesday afternoon.

City Offices Up for Grabs In May Vote

Circleville voters will select candidates for municipal offices in primary election set for May 5. Deadline for filing petitions of candidacy is February 4.

On the ballot this year are offices of mayor, president of Council, seven City Council posts, auditor, solicitor, treasurer and judge of Municipal Court. Three posts on the Circleville Board of Education also are to be filled.

Incumbents in the local government are Ben H. Gordon (D), mayor; Richard W. Penn (R), president of Council;

Councilmen - at-large - Joseph Bell (R); Dudley J. Carpenter (D); and David Crawford (D); Councilmen: First Ward - Charles Kirkpatrick (R); Second Ward - Merle M. Huffer (D); Third Ward - Boyd Horn (D);

Auditor - Mrs. Marvene L. Turners (R); treasurer - Everett P. Stocklen (D); Solicitor - Robert H. Huffer (D); and Municipal Court Judge - Sterling M. Lamb, non-partisan.

Holding the three school board posts which must be filled are Robert L. Brehmer Jr.; Robert S. Elsea, and County Prosecutor Ray W. Davis.

Even Kitchen Sinks Aren't Safe Any More

HAMILTON, Ohio (AP)—Even the kitchen sink isn't safe any more in Hamilton.

Police said Sunday that thieves broke into the home of Miss Maggie Forney over the weekend and took the sink plus a half-dozen other items.

A similar plunder was reported at the home of the Rev. Sloan Hodges who said the kitchen sink and bathtub were stolen.

West Virginia Youth Dies in Auto Accident

Russian Aide, Dulles To Talk

Berlin Problem Seen Possible on Agenda

WASHINGTON (AP)—Old Bolshevik Anastas I. Mikoyan, insisting he is just on vacation, set up a no-holds-barred talk about the cold war with Secretary of State Dulles today.

The 63-year-old Soviet first deputy premier flew into New York City Sunday and drove directly to Washington.

At New York's airport, he studiously ignored a group of Hungarian refugees, some of whom yelled "murderer" and "Communist dog" at him. But a larger contingent waited in vain at the Soviet U. N. mission headquarters on Park Ave., which he bypassed.

Today, however, some of the same determined picketers arranged to march with placards outside the State Department, where Mikoyan had his appointment with Dulles. Both Mikoyan and State Department officials indicated the Berlin situation would figure in the talks.

The days ahead also have no fixed schedule. Mikoyan says he will be happy to talk about anything Dulles wants, including Berlin. Dulles says "The initiative is his." Mikoyan says he would be pleased to talk to President Eisenhower if the President has time.

One thing stood out clear. The critical Berlin situation—provoked two months ago by Soviet Premier Khrushchev—is the biggest cold war issue at present, and hence the most likely topic of any talks Mikoyan holds here. The question in the official American mind was: How far is Mikoyan authorized to go—if at all—in backing down from Khrushchev's seeming ultimatum, rejected by the West, that the allies pull their troops out of West Berlin by next May?

Hillsboro Holds Cubans, Cache Of Rebel Arms

HILLSBORO, Ohio (AP)—Two Cuban natives are held in jail here along with a small arsenal authorities said was destined for Fidel Castro forces in Cuba.

U.S. Customs officials authorized Sheriff Walter Reffitt to seize the arms, which included 17 high-powered rifles, two automatic pistols and 10,000 rounds of ammunition.

The sheriff's office identified the pair as Isabel Monal and Christobal Alvarado, both 27. They were en route to Miami, Fla., when arrested here during the weekend.

Officers quoted the woman as saying she had been sent from Cuba by Castro's forces to buy the guns and ammunition. She was given \$10,000 to do the job, she said, and paid out about \$8,000 for the shipment.

She said she met Alvarado in New York and that he was assigned to be her driver. They mapped out a route through the Midwest to avoid the East Coast, the woman told officers. They were delayed here for two days after a minor traffic accident Wednesday. Garage mechanics discovered the cache and notified the sheriff.

The girl, an exchange student at Harvard, said she knew smuggling was illegal but regarded it as her patriotic duty, officials said.

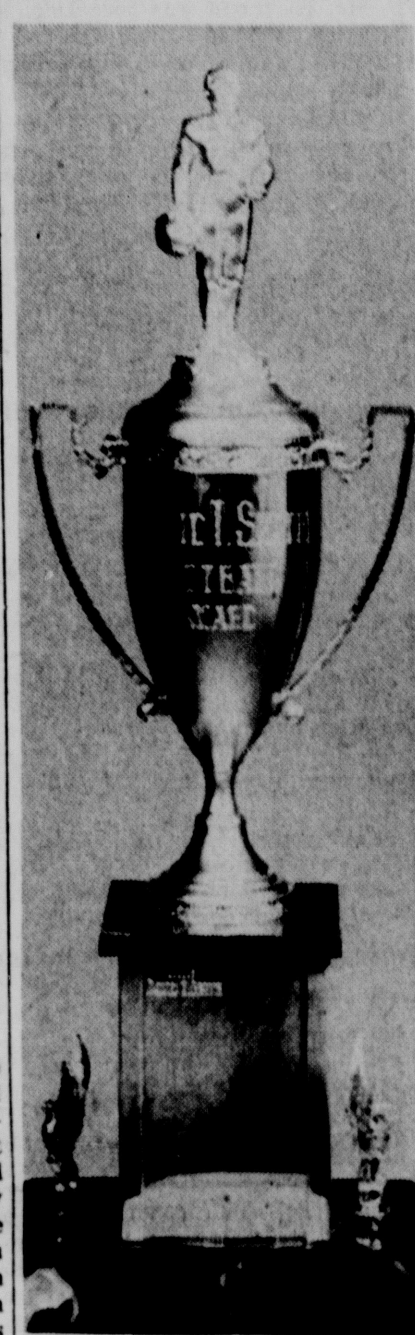

No charges have been filed pending further consultation between local officers and U.S. Customs officials.

6 Below-Just Right for Swim

CINCINNATI (AP)—The official thermometer showed the temperature to be six degrees below zero this morning, but Ron Jones, 24, scoffed at it. "Just good swimming weather," he said in a restaurant.

One word brought on another, so Jones and three witnesses walked to the Little Miami River edge. There he undressed, leaped into the stream, submerged, jumped out, dressed, returned to the restaurant for a cup of coffee, and collected a \$20 wager.

20,000 Aides Laid Off by Struck Airline

WASHINGTON (AP)—About 20,000 of American Airlines' 22,000 employees were furloughed today as efforts continued to settle a 17-day strike by pilots.

Progress was reported in narrowing issues between the airline and striking members of the Air Line Pilots Assn., when a mediation session broke up early today. Another meeting was scheduled for 10:30 a.m.

American had announced in advance that the furlough order taking the employees off the payroll would become effective at midnight Sunday night if the strike was not settled. Employees kept on the payroll are in supervisory, maintenance and protective classifications.

Leverett Edwards, chairman of the National Mediation Board, said he would try to keep the negotiations going until a settlement is reached. The sessions are being held in his office here.

American is the nation's largest domestic airline from the standpoint of passenger miles flown. It normally carries an average of 22,000 passengers daily, serving 77 cities in the United States, Canada and Mexico.

About 1,500 of the airline's pilots walked out in a demand for more pay and fewer hours of flying time on the new jet airlines the carrier plans to put into service soon.

Ex-Springfield Aide Accidentally Killed

SPRINGFIELD, Ore. (AP)—Former city manager Leroy B. Bartlett, 62, accidentally shot and killed himself here Sunday.

Bartlett had been out target shooting. As he started to remove his gun from the car, it discharged.

A real estate agent, he was city manager here from 1951 to 1955. He was born at Alexandria, Minn., and was city manager at Superior, Wis., and Hamilton, Ohio, before coming to Springfield.

Chillicothean Faces Charge In Car Death

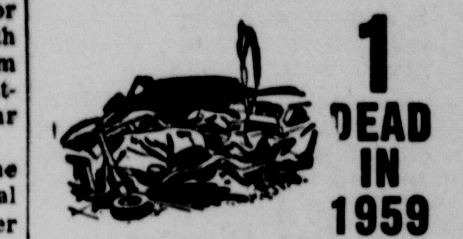

Traffic Fatality First in County During New Year

Glenn Harold Bryant Adkins, 19, Logan, W. Va., became Pickaway County's first traffic fatality of 1959 when another auto smashed into his car at 7:35 p. m. Saturday on the Circleville-Kingston Pike about eight miles southeast of here.

Adkins was dead on arrival at Berger Hospital. Officials said he died of massive chest injuries.

Three other persons were injured in the crash, including Adkins' uncle, Fayette Bryant, 33, Route 1, Kingston who was a passenger in the victim's car. He was rushed to Berger Hospital for a fractured left hip and left hand injuries.

The other car was operated by

Glenn C. Miller Jr., 16, Route 4, Chillicothe. He suffered possible chest injuries and abrasions and contusions.

Martha Kuntz, 15, Chillicothe, a passenger in Miller's car, was treated at the hospital for chest injuries and abrasions and contusions.

DEPUTY SHERIFFS Robert Hoover and Dwight Radcliff said Adkins was pinned in his smashed car for about 30 minutes before lawmen and assistants could free him.

Deputy Hoover said that Miller admitted that he had been racing with a car operated by Roger Holden, 22, Route 4, Chillicothe. Merl Jarrell, Kingston, was a passenger in the Holden car.

According to Bryant, Adkins was attempting to make a left turn at the Russell England residence (Continued on Page Two)

Fire Strikes Rural Home

Fire which struck the Delbert Adams residence at about 9 p. m. yesterday caused damage estimated at \$12,000.

Mr. and Mrs. Adams, Betty Adams, 14, Linda Adams, 6, and Ruth Hixson, 17, were in the house when the fire was discovered. They managed to escape without injury.

The home is located on the Kinderhook-Frankfort Road about nine miles southwest of here. It was owned by Richard Simpkins, Circleville.

Deputy Sheriff Robert Hoover said the house was valued at \$12,000 and its contents \$4,000. The entire rear of the house was in flames when Hoover and firemen from Williamsport and Clarksville reached the scene.

Mrs. Adams discovered the fire when she opened a closet, located near the chimney of the house. She said smoke rolled out of the closet and that the house soon was in flames.

News Woman Heads for Jail; Refuses To Identify Source

NEW YORK (AP)—Newspaper columnist Marie Torre surrendered today to begin serving a 10-day jail sentence rather than disclose a news source.

Miss Torre, 34 and mother of two young children writes a syndicated television and radio column for the New York Herald Tribune. She appeared before U.S. Dist. Judge Sylvester J. Ryan and was remanded to custody of a marshal 10:05 a.m.

"I have great hope that this action will lead to legislation which will protect a newsman's sources," she told reporters as she arrived at the courthouse.

Ryan had found Miss Torre in contempt for refusing to disclose the source of a story she wrote in 1957 concerning movie star Judy Garland.

Ryan has said that the colum-

nist again may be adjudged in contempt—even after completing her sentence—if she persists in refusing to identify the Columbia Broadcasting System executive she quoted anonymously in reference to Miss Garland in a column that appeared in the Herald Tribune Jan. 10, 1957.

In it, Miss Torre quoted an executive of CBS in criticism of Miss Garland.

The entertainer filed a \$1,393, 333 libel suit against CBS. Neither Miss Torre nor the Herald Tribune was named as a defendant.

Ryan adjudged Miss Torre in contempt last November. The Herald Tribune appealed the case to the U.S. Court of Appeals, which upheld the conviction. The case then went to the U.S. Supreme Court, but that tribunal declined to review it.

Holiday Traffic Toll Still Climbs

Safety Council Notes Homeward Rush Data

By THE ASSOCIATED PRESS

The nation's traffic death toll during the long New Year weekend, showing sharp upward trends at the start and the close, edged toward the preholiday estimate of 390 today.

As of about noon today, the national traffic toll stood at 376 dead. In addition, there were 60 killed by fires and 112 in miscellaneous accidents for a total of 548.

Ohio's contribution to the death list: 17 in traffic, two in fires, 11 miscellaneous for a total of 30.

The final count awaited delayed reports of accident deaths which occurred up to midnight Sunday. It started at 6 o'clock (local time) New Year's Eve.

Although it appeared possible the final toll would reach the National Safety Council's estimate, indications were the final toll would be under the record traffic toll of 409 for a New Year holiday period. That mark was posted in a four-day period at the end of 1956 and the start of 1957.

The Council noted the swift pace of deaths on the highways Sunday as the homeward rush of motorists reached the peak of travel. The upturn was similar to the toll on New Year's Day after a relatively safe start.

Weather was a big factor in the count. Many accidents were attributed to the snow and ice-slicked highways. But the hazardous driving conditions also resulted in keeping many Sunday drivers at home. The bitter cold weather throughout many areas also was responsible for the lighter traffic.

The New Year traffic toll was far under the slaughter on the highways during the four-day Christmas holiday period. The Christmas accident deaths included 594 in traffic, 93 in fires and 97 in miscellaneous type mishaps, an over-all total of 784.

Modern Voting Facilities Cited

COLUMBUS, Ohio (AP)—Biggest problem of Ohio's election officials is to keep voting facilities tuned to a rapidly increasing and shifting population.

That was what Secretary of State Ted W. Brown told the 10th annual convention of the Ohio Assn. of Election Officials opening here today. Awards will be made to outstanding election boards at a banquet tonight. The convention closes Tuesday.

"While every effort must be made to accommodate the voter," Brown said, "the public must be made to understand that expansion of voting facilities is paid by the taxpayer."

"To meet the growing and changing conditions, and still not get our costs out of proportion, warrants our diligent care as public officials."

Yanks To Get Shots

BOON, Germany (AP)—All U.S. Embassy personnel have been asked to get smallpox booster shots as a result of the outbreak of the disease in West Germany.

Russia's 'Mechta' Nears Solar Orbit

MOSCOW (AP)—The Soviet Union's cosmic rocket continued its headlong dash toward a solar orbit today in man's greatest conquest of space.

Its radio signals ceased as the 1½-ton device—now called Mechta (dream)—went past an estimated 370,960 miles in its plunge away from the earth. It had then been in flight 62 hours.

Resources for feeding the radio equipment had become exhausted, the Soviet news agency Tass said.

"The program of observations and scientific investigations of the rocket has been completed," an announcement said.

This predicted the rocket will finally enter an orbit around the sun Wednesday or Thursday. Mechta is due to take 15 months to go around the sun, traveling elliptically.

The Russians calculate this orbit would have a maximum diameter of 214 million miles. The rocket would get no nearer the sun than 91½ million miles. The sun averages 93 million miles from earth.

The name Mechta was applied to the rocket today by Pravda the Communist party newspaper. When it was announced last Saturday that the rocket was headed toward the moon, it was called Lunik, a combination of Luna (moon) and Sputnik.

Scientists here figured that it was travelling at a maximum speed of 1.52 miles a second when it passed the moon Sunday at a distance of 4,700 miles.

Results of radio transmissions between the rocket and ground stations will be published as soon as they are analyzed, Tass said.

The 62 hours of radio communication enabled observations to be made of the rocket's movements,

and on the work of the scientific instruments aboard.

The actual number of days that will be required for the solar orbit will be 447, scientists said. This is 82 more than it takes the earth to go around the sun.

Dr. G. M. Clemence, scientific director of the U. S. Naval Observatory in Washington, said that some time in March or February the earth will pass between the rocket and the sun.

The earth has an elliptical orbit around the sun, the same as the rocket will have, but it is tighter. It takes the earth only 12 months to make the full swing.

Soviet newspapers Sunday were filled with comments on the performance and predictions of new space ventures. But there were no further details on the rocket itself, its launching site or power.

On a Moscow radio broadcast Prof. Boris Kukarkin, deputy chairman of the Soviet Astronomical Council, mentioned the possibility of a space ship soaring outside the entire solar system.

Kukarkin said that higher speeds than those needed by Russia's space rocket to escape earth's gravity are probably attainable in the near future.

"Similar space ships will be capable of traveling beyond the boundaries of our solar system," he declared.

In Nuernberg, Germany, Prof. Hermann Oberth, who recently resigned from a post as adviser to the U. S. Army's missile program, said the Soviets possibly wanted to hit the moon with their rocket but "slyly covered up" an error in calculation when they established that it would bypass the moon and continue its travel in space.

(He said he did not think the Russians were more than two or three months ahead of the United States in rocketry.)

U.S., Canada Officials Set Trade Parley

OTTAWA (AP)—Top U.S. and Canadian officials open annual talks tonight aimed at reducing friction that could hurt their seven billion dollars worth of across-the-border trade, a world high for any two countries.

Secretary of State Dulles was to lead the group of high U.S. officials due at nearby Uplands Airport this afternoon for meetings with Canadian officials headed by Finance Minister Donald M. Fleming.

Dulles and his companions likely are after assurances that Canada won't be using her new tough antidumping laws to discriminate against U.S. textiles and other exports.

The United States has already lodged formal protests, charging that the new laws enacted last year are a breach of Canada's international trade obligations. Canada's conservative administration has rejected the protests, arguing the legislation is fair and reasonable.

With Canada holding a strong bargaining lever in the antidumping laws, the four-man Canadian ministerial team is likely to seek American concessions in oil, lead and zinc, and wheat.

The officials are meeting as members of the cabinet-level Joint Trade and Foreign Affairs Committee, set up in 1953 as an annual conference in attempts to head off trade issues that could lead to friction between the two countries.

The talks are to open after dinner tonight. The American delegation will return to Washington Tuesday afternoon.

City Offices Up for Grabs In May Vote

Circleville voters will select candidates for municipal offices in primary election set for May 5. Deadline for filing petitions of candidacy is February 4.

On the ballot this year are offices of mayor, president of Council, seven City Council posts, auditor, solicitor, treasurer and judge of Municipal Court.

Three posts on the Circleville Board of Education also are to be filled.

Incumbents in the local government are Ben H. Gordon (D), mayor; Richard W. Penn (R), president of Council;

Councilmen—at-large—Joseph Bell (R); Dudley J. Carpenter (D); and David Crawford (D); Councilmen: First Ward—Charles Kirkpatrick (R); Second Ward—John Jenkins (D); Third Ward—Merle M. Huffer (D); Fourth Ward—Boyd Horn (D);

Auditor—Mrs. Marvene L. Turners (R); treasurer—Everett P. Stocklen (D); Solicitor—Robert H. Huffer (D); and Municipal Court Judge—Sterling M. Lamb, non-partisan.

Holding the three school board posts which must be filled are Robert L. Brehmer Jr.; Robert S. Elsea, and County Prosecutor Ray W. Davis.

Even Kitchen Sinks Aren't Safe Any More

HAMILTON, Ohio (AP)—Even the kitchen sink isn't safe any more in Hamilton.

Police said Sunday that thieves broke into the home of Miss Maggie Forney over the weekend and took the sink plus a half-dozen other items.

A similar plunder was reported at the home of the Rev. Sloan Hodges who said the kitchen sink and bathtub were stolen.

Weather . . .

(Continued from Page One)

Colorado. Natural gas consumption was curtailed to several cities in Texas, including Dallas and Fort Worth, because of heavier than normal domestic demands for the fuel.

Temperatures dropped to 25 degrees below zero Sunday in the Texas Panhandle.

Oklahoma had its coldest weather in 12 years over the weekend and not much relief was reported today. One of the lowest readings was -19 at Guyton and Oklahoma City's -4 was the coldest since Jan. 4, 1947.

Temperatures moderated in the Rocky Mountain states after the weekend.

If it is any solace to fellow Americans in the sub-zero Midwest, Anchorage folks would like it known that the high temperature here Sunday was 17 and the low was 12—above zero, that is.

Coldest weather in 25 years. It was below zero in Denver for 41 consecutive hours.

The coldest spots Sunday were Big Piney, in remote western Wyoming, and Hibbing, in the northern Minnesota iron range district. The mercury plunged to 43 in both communities.

The subzero pattern held the line throughout the Midwest and lowest readings of the season were reported in many cities.

Skies were generally clear in most of the cold belt but snow covered the ground across most of the Midwest and Rockies.

Six inches of fresh snow fell at Boonville, N.Y., near Lake Ontario, making a total of some 32 inches on the ground. More than three inches fell at Buffalo and Syracuse, N.Y.

The Weather Bureau reported that although the coldest weather held its grip in the Midwest, the biggest temperature drops during the past 24 hours were in the Eastern section of the country. Readings were 10 to 25 degrees lower than 24 hours earlier from the eastern Gulf Coast northward through the upper Ohio Valley to the lower Great Lakes, mid-Atlantic states and New England.

Stock Prices Head Toward Record Highs

NEW YORK (AP)—The stock market advanced toward new highs in very heavy trading early this afternoon.

Pivotal issues rose from fractions to a point or more.

The ticker tape was late repeatedly as strong buying pressure came in wave after wave.

For the first two hours turnover was a half million shares better than Friday when the day's total was 3,380,000.

Investment demand went from group to group and was not sustained enough in any one section of the market to cause very large gains anywhere except in a few special situations.

Steels, motors, rails, aircrafts, utilities and most chemicals were higher. Nonferrous metals, drugs and airlines were mixed while tobaccos were firm.

U.S. government bonds were modestly higher.

Colgate-Palmolive opened up 5 and was about the same in slow dealings later.

Zenith was up around 3. Good-year erased an early gain of about 2. Eastman Kodak was more than 2 to the good.

Gains of better than a point were made by U.S. Steel and Chrysler.

American Motors and Eastern Air Lines lost fractions.

Santa Fe was off 1/4.

Woman Is Held In Forgery Case

Frances Smith, Chillicothe RFD, was bound to the Pickaway County Grand Jury Saturday on an accusation of forgery.

She appeared in Circleville Municipal Court where bond was set at \$3,000. She pleaded innocent to the charge.

The affidavit was filed by Deputy Sheriff Dwight Radcliff who investigated the case.

Grange To Meet

The Logan Elm Grange will meet at 7:30 p. m. tomorrow in the Pickaway Twp. school auditorium.

Deaths

MRS. IDA DRESBACH

Services will be at 2 p. m. Tuesday in the Ashville Church of Christ in Christian Union for Mrs. Ida Dresbach, 52, formerly of Ashville, who died January 1 in Columbus Hospital following a five-year illness.

She was the widow of John Dresbach and also of Harry Neff.

She is survived by two daughters, Mrs. Betty Haddock, Circleville; Mrs. Jeanette Davis, Oklahoma; three sons, Eugene Neff, 455 Watt St.; Donald Neff, Kentucky, and Robert Neff, Columbus; two sisters, Mrs. Al Green, Bloomington, and Mrs. Mable Donaldson, Ashville, and a brother, Clarence Coon.

The Rev. Roy Ferguson will officiate at the services. Burial will be in Reber Hill Cemetery. The body will be at the church after 10 a. m. Tuesday.

WAYNE L. HARTRANFT

Mr. Wayne L. Hartranft, 65, Route 1, died at 11:30 p. m. yesterday, the victim of a heart attack. Mr. Hartranft was born Dec. 14, 1893 in Fairfield County, the son of Lorenzo and Amanda Foulk Hartranft.

Survivors are two brothers, Homer, Route 1, Stoutsville, and Perry, Tarleton, and one sister, Mrs. Florence Hanley, Route 1.

Funeral services will be held at 2 p. m. Wednesday in the Deffenbaugh Funeral Home. Burial will be in Tarleton Cemetery.

Friends may call at the funeral home.

Horse, Airplane In Collision

MALIBU, Calif. (AP)—Sheriff's officers here Sunday investigated a collision involving a horse and an airplane.

Robert Goodyear, 49, glided in for a landing in an open field after his light plane ran out of gas Sunday. A horse galloped into the craft's path and they collided.

The horse was killed. Goodyear's plane was wrecked, and the pilot and his wife, Mary, 46, suffered cuts and bruises.

3 Ex-Cops Sent to Pen For Thefts

LISBON, Ohio (AP)—Three former East Liverpool law enforcement officers today were sentenced to terms of one to 15 years in the Ohio Penitentiary for burglary.

The three were convicted on charges which arose from investigation of the East Liverpool police scandal in 1956.

They are former patrolmen Ira Cunningham, 51, and Louis Stutler, 37, and former special officer Jerry Raimond, 35.

Common Pleas Judge Raymond Buzzard delayed execution of the sentence pending possible filing of appeals in the Seventh District Court of Appeals.

The judge also heard Cunningham's plea of innocent to an indictment accusing him of trying to bribe a prospective juror in his trial. During Cunningham's trial the prosecution played a tape recording of a conversation allegedly between Cunningham and Donald Lockhart of East Liverpool, who had been named a prospective juror.

In that conversation Cunningham allegedly told Lockhart he would "make it worth your while" if Lockhart never was seated as a juror.

Cunningham and Raimond were convicted Nov. 21 of breaking and entering the Burbick Hardware Store in East Liverpool. Another former policeman was acquitted of the same charge.

Stutler was convicted Dec. 11 of a 1954 burglary of the same hardware store.

Bardot Sets Nuptials

PARIS (AP)—French movie actress Brigitte Bardot and her jazz-guitarist fiancé, Sacha Distel, have set Jan. 29 as their wedding date. Each is 24.

TEXAS SIZE TRAFFIC JAM—Following a late afternoon snowstorm, a mammoth traffic jam formed in Dallas, Tex.

Michel Named Chairman of Commissioners

Democrat Clyde Michel, Route 1, Mt. Sterling, was this morning elected chairman of the Pickaway County Board of Commissioners.

Michel, starting his third year as a commissioner, replaced Wayne Hines, Republican. Charles Morris Jr., Route 4, began his term of office today after his successful election in the Nov. 4, 1958 general election.

Morris narrowly defeated incumbent Harley Mace in the Democratic primary but nearly doubled the votes on his general election opposition, Clarence Maxson, Route 1, Laurelville, Republican.

Morris will serve four years at \$3,000 a year. He is a Salter Creek Twp. farmer and a prominent Democrat, serving on the party's central and executive committees for many years.

A total of \$7,329.04 in bills and claims was approved for the week ending Dec. 22, 1958 and \$16,861.17 was approved Dec. 29, 1958.

THE FOLLOWING transfers were approved during the past two weeks: from stationery and supplies of the Treasurer's office to other expenses, \$35; from examiners fund to maintenance of Memorial Hall, \$100;

From public utilities excise tax fund to general relief, \$7,386.94; from miscellaneous expenses to general agriculture fund, \$600;

From Child Welfare employees fund to crippled child fund, \$250, and insurance on courthouse building to permanent improvements, \$1,237.29.

Roy White, Route 1, Williamsport, recently was re-appointed to the County Child Welfare Board. His appointment by the commissioners will run for four years.

Rayburn To Note 77th Birthday

WASHINGTON (AP)—House Speaker Sam Rayburn (D-Tex.) reaches his 77th birthday Tuesday.

The Texan will meet with fellow Democratic congressmen in the morning at a party caucus to map plans for the 86th Congress, which convenes Wednesday.

Born Jan. 6, 1882 in Roane County, Tenn., Rayburn went to Texas with his parents when a child and was reared on a farm in the north-eastern part of the state.

Alaskan Chieftain Ill on First Day

JUNEAU, Alaska (AP)—It was the first workday today for the new state of Alaska but it's first elected governor spent it at a hospital.

While residents of the union's 49th and largest state went to their places of business, Gov. William A. Egan rested easily under treatment for a jaundice condition.

Egan, 44, who recently underwent surgery for a hemorrhoid condition, was hospitalized after delivering his inaugural speech here Saturday. Doctors said it would be at least a day or longer until he can assume his duties.

where they planned to purchase eggs.

Bryant said Holdren's car zoomed past them at a high rate of speed. He said seconds later Miller's car smashed into the side of Adkin's auto, pushing it into the ditch.

Deputy Hoover said Miller will be charged with second degree manslaughter. Holdren will face accusation of reckless operation, he added.

Both autos were heavily damaged, Hoover said.

Lawmen said Adkins came here from West Virginia shortly before Christmas with the intentions of making his home with his mother, Mrs. Donzel Bryant Brooks, Route 1, Kingston.

The body was taken to the Deffenbaugh Funeral Home and later transferred to Logan, W. Va. where burial services will be held tomorrow.

Parents Wait For News of Kidnaped Baby

NEW YORK (AP)—Mr. and Mrs. Frank Chionchio waited anxiously, hopefully, prayerfully for some news today of their kidnaped newborn daughter. A city shared their anxiety, their hope, their prayers.

An intense, agonizing search by police and FBI agents continued for the missing infant. She was taken from a fourth-floor nursery of St. Peter's Hospital in Brooklyn Friday night, only 2 1/2 hours after birth.

"There are no leads," Det. Chief James B. Leggett said Sunday.

Police and private citizens were on the alert for a heavy-set blonde believed to be the kidnaper. She was seen loitering in the hospital before the kidnapping. Transportation employees kept an especially watchful lookout.

San Francisco police sent here a description of a woman who took a baby from Mt. Zion Hospital there three years ago. The description fitted the woman seen at St. Peter's.

The California woman was identified as Mrs. Betty Jean Benedict, 31, who is wanted for parole violation.

She lost a baby in 1945 and was unable to have more.

The California baby was left with a priest nine days after the kidnapping.

The baby weighed seven pounds when born Friday night to Mrs. Chionchio, 26. Mrs. Chionchio, who has one other child, Gerardette, one, remained in St. Peter's. Doctors described her as "very upset."

Truck Said Taken By 13-Year-Old

A truck owned by Forrest Redman, 158 York St., was taken from its parking place on E. Main St. yesterday. Circleville Police reported today.

Officers said the 1/2-ton truck apparently was taken by a 13-year-old juvenile. The vehicle was recovered yesterday evening in Columbus by the Franklin County Sheriff's Department. The youth was apprehended.

According to local police, the juvenile is being held by Franklin County lawmen.

Provisional Chief Awaited by Cuba

HAVANA, Cuba (AP)—Provisional President Manuel Urrutia was awaited at International Airport here today for a triumphal entry of Cuba's capital.

Fidel Castro, the revolutionist who forced the New Year's Day resignation and flight of dictator President Fulgencio Batista and boosted Urrutia to power, continued his slow, victorious march toward the capital from the eastern provinces.

For the first time since the de-

parture of Batista the capital looked almost normal, with stores open and traffic flourishing.

But Cuba's jails were filling up as Castro forces rounded up Batista followers. More than 600 members of the Batista national police and about 500 army aviation personnel were under arrest.

Among those detained were officers accused of bombing Cuban towns in an effort to wipe out the rebellion. Large numbers of civilians also have been arrested.

Hernan Hernandez, Havana police chief under Batista, was reported among those seized.

Tens of thousands in cities, towns and villages turned out to cheer wildly as Castro and his motorized columns made their way from the Oriente province center of their rebellion which overthrew the dictatorship of Fulgencio Batista last week.

The progress was slow: Camaguey, 300 miles from Havana, Sunday night; tonight, Santa Clara, scene of the decisive defeat which forced Batista to flee, 140 miles further along the march; Tuesday, Matanzas, 50 miles from the capital.

Castro and his men were expected in the capital Wednesday afternoon for one of the greatest welcomes in Cuban history.

Castro's bearded soldiers patrolled the streets with rifles, pistols, and machineguns, guarded government buildings and banks and roamed the lobbies and corridors of hotels, on the alert for violence.

Speedy executions already had been meted out to at least five Batista henchmen. They were Capt. Jose Garcia Menocal, a police inspector in the western province of Pinar del Rio; Brig. Gen. Joaquin Casilla, Batista's commander in Las Villas province, and three of his top staff officers.

Among those under arrest was Dr. Joaquin Martinez Saenz, president of the National Bank of Cuba.

The frantic exodus of thousands of American tourists eased off. Scores who had been planning to leave decided to stay. More than 1,000 had returned to the states by special ships and planes.

Cattle 19,000; calves 100; slaughter cattle steady to 25 higher; a few loads prime 1.100 - 1.350 lb. steers 20.25 - 20.75; some mixed choice and prime 20.01-20.25 lbs. included at 20.25; most choice and prime 1.250 lbs. down 27.00-29.00; choice and prime around 1.300 - 1.800 lbs. 25.00-28.00; good grade 24.00-27.00 according to weight; two loads mixed choice and prime heifers 26.75; most good and choice 25.50-28.25; standard to low good 24.00-25.25; utility and commercial cows 18.00-20.50; canners and cutters 16.00-19.00; utility and commercial bulls 23.50-25.50; vealers 22.00 down; culls as low as 15.00; some medium and good 750-975 lb. stocker and feeder steers 25.00-26.50; good 750 lbs. 26.50. Sheep 6,000; lambs weak to 25 lower; good and choice woolled lambs 105-112 lbs. 18.75-19.50; a double deck 118 lbs. 18.50; cull to low good 15.00 - 17.50; good to choice 112 lb. shorn lambs with No. 1 pelts 17.50-18.25; a double deck mostly choice 104 lb. fall shorn pelts 19.50; cull to choice slaughter ewes 6.00-7.50.

Weather

(Continued from Page One)

Colorado. Natural gas consumption was curtailed to several cities in Texas, including Dallas and Fort Worth, because of heavier than normal domestic demands for the fuel.

Temperatures dropped to 25 degrees below zero Sunday in the Texas Panhandle.

Oklahoma had its coldest weather in 12 years over the weekend and not much relief was reported today. One of the lowest readings was -19 at Guyton and Oklahoma City's -4 was the coldest since Jan. 4, 1947.

Temperatures moderated in the Rocky Mountain states after the weekend.

If it is any solace to fellow Americans in the sub-zero Midwest, Anchorage folks would like it known that the high temperature here Sunday was 17 and the low was 12—above zero, that is.

The coldest spots Sunday were Big Piney, in remote western Wyoming, and Hibbing, in the northern Minnesota iron range district. The mercury plunged to -43 in both communities.

The subzero pattern held the line throughout the Midwest and lowest readings of the season were reported in many cities.

Skies were generally clear in most of the cold belt but snow covered the ground across most of the Midwest and Rockies.

Six inches of fresh snow fell at Boonville, N.Y., near Lake Ontario, making a total of some 32 inches on the ground. More than three inches fell at Buffalo and Syracuse, N.Y.

The Weather Bureau reported that although the coldest weather held its grip in the Midwest, the biggest temperature drops during the past 24 hours were in the Eastern section of the country. Readings were 10 to 25 degrees lower than 24 hours earlier from the eastern Gulf Coast northward through the upper Ohio Valley to the lower Great Lakes, mid-Atlantic states and New England.

Stock Prices Head Toward Record Highs

NEW YORK (AP)—The stock market advanced toward early highs in very heavy trading early this afternoon.

Pivotal issues rose from fractions to a point or more.

The ticker tape was late repeatedly as strong buying pressure came in wave after wave.

For the first two hours turnover was a half million shares better than Friday when the day's total was 3,380,000.

Investment demand went from group to group and was not sustained enough in any one section of the market to cause very large gains anywhere except in a few special situations.

Steels, motors, rails, aircrafts, utilities and most chemicals were higher. Nonferrous metals, drugs and airlines were mixed while tobacco was firm.

U.S. government bonds were modestly higher.

Colgate-Palmolive opened up 5 and was about the same in slow dealings later.

Zenith was up around 3. Good-year erased an early gain of about 2. Eastman Kodak was more than 2 to the good.

Gains of better than a point were made by U.S. Steel and Chrysler.

American Motors and Eastern Air Lines lost fractions.

Santa Fe was off 1/4.

Woman Is Held In Forgery Case

Frances Smith, Chillicothe RFD, was bound to the Pickaway County Grand Jury Saturday on an accusation of forgery.

She appeared in Circleville Municipal Court where bond was set at \$3,000. She pleaded innocent to the charge.

The affidavit was filed by Deputy Sheriff Dwight Radcliff who investigated the case.

Grange To Meet

The Logan Elm Grange will meet at 7:30 p. m. tomorrow in the Pickaway Twp. school auditorium.

Deaths

MRS. IDA DRESBACH

Services will be at 2 p. m. Tuesday in the Ashville Church of Christ in Christian Union for Mrs. Ida Dresbach, 52, formerly of Ashville, who died January 1 in Columbus Hospital following a five-year illness.

She was the widow of John Dresbach and also of Harry Neff.

She is survived by two daughters, Mrs. Betty Haddock, Circleville; Mrs. Jeanette Davis, Oklahoma; three sons, Eugene Neff, 455 Watt St.; Donald Neff, Kentucky; and Robert Neff, Columbus; two sisters, Mrs. Al Green, Bloomington; and Mrs. Mable Donaldson, Ashville, and a brother, Clarence Coon.

The Rev. Roy Ferguson will officiate at the services. Burial will be in Reber Hill Cemetery. The body will be at the church after 10 a. m. Tuesday.

WAYNE L. HARTMAN

Mr. Wayne L. Hartman, 65, Route 1, died at 11:30 p. m. yesterday, the victim of a heart attack.

Mr. Hartman was born Dec. 14, 1893 in Fairfield County, the son of Lorenzo and Amanda Foulk Hartman.

Survivors are two brothers, Homer, Route 1, Stoutsville, and Perry, Tarilton, and one sister, Mrs. Florence Hanley, Route 1.

Funeral services will be held at 2 p. m. Wednesday in the Deffenbaugh Funeral Home. Burial will be in Tarilton Cemetery.

Friends may call at the funeral home.

Horse, Airplane In Collision

MALIBU, Calif. (AP)—Sheriff's officers here Sunday investigated a collision involving a horse and an airplane.

Robert Goodyear, 49, glided in for a landing in an open field after his light plane ran out of gas Sunday. A horse galloped into the craft's path and they collided.

The horse was killed. Goodyear's plane was wrecked, and the pilot and his wife, Mary, 46, suffered cuts and bruises.

3 Ex-Cops Sent to Pen For Thefts

LISBON, Ohio (AP)—Three former East Liverpool law enforcement officers today were sentenced to terms of one to 15 years in the Ohio Penitentiary for burglary.

The three were convicted on charges which arose from investigation of the East Liverpool police scandal in 1956.

They are former patrolmen Ira Cunningham, 51, and Louis Stutler, 37, and former special officer Jerry Raimond, 35.

Common Pleas Judge Raymond Buzzard delayed execution of the sentence pending possible filing of appeals in the Seventh District Court of Appeals.

The judge also heard Cunningham's plea of innocent to an indictment accusing him of trying to bribe a prospective juror in his trial. During Cunningham's trial the prosecution played a tape recording of a conversation allegedly between Cunningham and Donald Lockhart of East Liverpool, who had been named a prospective juror.

In that conversation Cunningham allegedly told Lockhart he would "make it worth your while" if Lockhart never was seated as a juror.

Cunningham and Raimond were convicted Nov. 21 of breaking and entering the Burbick Hardware Store in East Liverpool. Another former policeman was acquitted of the same charge.

Stutler was convicted Dec. 11 of a 1954 burglary of the same hardware store.

Bardot Sets Nuptials

PARIS (AP)—French movie actress Brigitte Bardot and her jazz-guitarist fiancé, Sacha Distel, have set Jan. 29 as their wedding date. Each is 24.

GETTING UP NIGHTS

Safe for young and old. Ask druggist for CYS-TEX. See how fast you improve.

TEXAS SIZE TRAFFIC JAM—Following a late afternoon snowstorm, a mammoth traffic jam formed in Dallas, Tex.

Michel Named Chairman of Commissioners

Democrat Clyde Michel, Route 1, Mt. Sterling, was this morning elected chairman of the Pickaway County Board of Commissioners.

Michel, starting his third year as a commissioner, replaced Wayne Hines, Republican. Charles Morris Jr., Route 4, began his term of office today after his successful election in the Nov. 4, 1958 general election.

Morris narrowly defeated incumbent Harley Mace in the Democratic primary but nearly doubled the votes on his general election opposition, Clarence Maxson, Route 1, Laurelville, Republican.

Morris will serve four years at \$3,000 a year. He is a Salter Creek Twp. farmer and a prominent Democrat, serving on the party's central and executive committees for many years.

A total of \$7,329.04 in bills and claims was approved for the week ending Dec. 22, 1958 and \$16,861.17 was approved Dec. 29, 1958.

THE FOLLOWING transfers were approved during the past two weeks: from stationary and supplies of the Treasurer's office to other expenses, \$35; from examiners fund to maintenance of Memorial Hall, \$100;

From public utilities excise tax fund to general relief, \$7,386.94; from miscellaneous expenses to general agriculture fund, \$600;

From Child Welfare employees fund to crippled child fund, \$250, and insurance on courthouse building to permanent improvements, \$1,237.29.

Roy White, Route 1, Williamsport, recently was re-appointed to the County Child Welfare Board. His appointment by the commissioners will run for four years.

Rayburn To Note 77th Birthday

WASHINGTON (AP)—House Speaker Sam Rayburn (D-Tex.) reaches his 77th birthday Tuesday.

The Texan will meet with fellow Democratic congressmen in the morning at a party caucus to map plans for the 86th Congress, which convenes Wednesday.

Born Jan. 6, 1882 in Roane County, Tenn., Rayburn went to Texas with his parents when a child and was reared on a farm in the north-eastern part of the state.

Alaskan Chieftain Ill on First Day

JUNEAU, Alaska (AP)—It was the first workday today for the new state of Alaska but it's first elected governor spent it at a hospital.

While residents of the union's 49th and largest state went to their places of business, Gov. William A. Egan rested easily under treatment for a jaundice condition.

Egan, 44, who recently underwent surgery for a hemorrhoid condition, was hospitalized after delivering his inaugural speech here Saturday. Doctors said it would be at least a day or longer until he can assume his duties.

where they planned to purchase eggs.

Bryant said Holdren's car zoomed past them at a high rate of speed. He said seconds later Miller's car smashed into the side of Adkins' auto, pushing it into the ditch.

Deputy Hoover said Miller will be charged with second degree manslaughter. Holdren will face accusation of reckless operation, he added.

Both autos were heavily damaged, Hoover said.

Lawrence said Adkins came here from West Virginia shortly before Christmas with the intentions of making his home with his mother, Mrs. Donzel Bryant Brooks, Route 1, Kingston.

The body was taken to the Deffenbaugh Funeral Home and later transferred to Logan, W. Va. where burial services will be held tomorrow.

Parents Wait For News of Kidnaped Baby

NEW YORK (AP)—Mr. and Mrs. Frank Chionchio waited anxiously, hopefully, prayerfully for some news today of their kidnaped newborn daughter. A city shared their anxiety, their hope, their prayers.

An intense, agonizing search by police and FBI agents continued for the missing infant. She was taken from a fourth-floor nursery of St. Peter's Hospital in Brooklyn Friday night, only 2 1/2 hours after birth.

"There are no leads," Det. Chief James B. Leggett said Sunday.

Police and private citizens were on the alert for a heavy-set bleached blonde believed to be the kidnaper. She was seen loitering in the hospital before the kidnapping. Transportation employees kept an especially watchful lookout.

San Francisco police sent here a description of a woman who took a baby from Mt. Zion Hospital three years ago. The description fitted the woman seen at St. Peter's.

The California woman was identified as Mrs. Betty Jean Benedict, 31, who is wanted for parole violation.

She lost a baby in 1945 and was unable to have more.

The California baby was left with a priest nine days after the kidnapping.

The baby weighed seven pounds when born Friday night to Mrs. Chionchio, 26. Mrs. Chionchio, who has one other child, Gerardette, one, remained in St. Peter's. Doctors described her as "very upset."

Truck Said Taken By 13-Year-Old

A truck owned by Forrest Redman, 158 York St., was taken from its parking place on E. Main St. yesterday. Circleville Police reported today.

Officers said the 1/2-ton truck apparently was taken by a 13-year-old juvenile. The vehicle was recovered yesterday evening in Columbus by the Franklin County Sheriff's Department. The youth was apprehended.

According to local police, the juvenile is being held by Franklin County lawmen.

Provisional Chief Awaited by Cuba

HAVANA, Cuba (AP)—Provisional President Manuel Urrutia was awaited at International Airport here today for a triumphal entry of Cuba's capital.

Fidel Castro, the revolutionist who forced the New Year's Day resignation and flight of dictator President Fulgencio Batista and boosted Urrutia to power, continued his slow, victorious march toward the capital from the eastern provinces.

For the first time since the de-

parture of Batista the capital looked almost normal, with stores open and traffic flourishing.

But Cuba's jails were filling up as Castro forces rounded up Batista followers. More than 600 members of the Batista national police and about 500 army aviation personnel were under arrest.

Among those detained were officers accused of bombing Cuban towns in an effort to wipe out the rebellion. Large numbers of civilians also have been arrested.

Hernan Hernandez, Havana police chief under Batista, was reported among those seized.

Tens of thousands in cities, towns and villages turned out to cheer wildly as Castro and his motorized columns made their way from the Oriente province center of their rebellion which overthrew the dictatorship of Fulgencio Batista last week.

The progress was slow: Camaguey, 300 miles from Havana, Sunday night; tonight, Santa Clara, scene of the decisive defeat which forced Batista to flee, 140 miles further along the march; Tuesday, Matanzas, 50 miles from the capital.

Castro and his men were expected in the capital Wednesday afternoon for one of the greatest welcomes in Cuban history.

Castro's bearded soldiers patrolled the streets with rifles, pistols, and machineguns, guarded government buildings and banks and roamed the lobbies and corridors of hotels, on the alert for violence.

Speedy executions already had been noted out to at least five Batista henchmen. They were Capt. Jose Garcia Menocal, a police inspector in the western province of Pinar del Rio; Brig. Gen. Joaquin Casilla, Batista's commander in Las Villas province, and three of his top staff officers.

Among those under arrest was Dr. Joaquin Martinez Saenz, president of the National Bank of Cuba.

The frantic exodus of thousands of American tourists eased off. Scores who had been planning to leave decided to stay. More than 1,000 had returned to the states by special ships and planes.

All commercial airlines were given permission to resume flights between the United States and Cuba early today.

Kentucky's Senator Cooper Maintains Independent Role

WASHINGTON (AP) — When Sen. John Sherman Cooper (R - Ky) first joined the senate in 1947, his first two votes were contrary to the wishes of the GOP leadership. "Are you a Democrat or Republican?" the then GOP senate leader Robert A. Taft of Ohio, asked Cooper that year. "When are you going to start voting with us?" "If you will pardon me," Cooper replied coolly, "I was sent here to represent my constituents and I intend to vote as I think best."

Today, as the candidate of an insurgent bloc of liberal Republicans for the senate GOP leadership, Cooper can show a voting record containing a number of disagreements with his more conservative colleagues. Cooper himself balks at the "liberal" label. He says he considers this group simply more progressive than the senators led by his opponent, Sen. Everett Dirksen (R-Ill.).

The usually pro-Democratic Americans for Democratic Action (ADA) and the AFL-CIO Committee on Political Education (COPE) both appear to agree with this opinion.

ADA, in a summary of congressional voting records, approved 58 per cent of Cooper's votes in 1958 and 75 per cent of them in 1957. COPE said Cooper voted "right" 12 times and wrong four times in 1957-58.

On the other hand, Dirksen was favored by ADA on only 25 per cent of his 1958 votes and on 58 per cent of them in 1957. COPE called him "wrong" on 11 votes

in 1957-58 and "right" on only five.

Here are random comparisons of some of Cooper's votes differing with Dirksen's over the last five years, along with President Eisenhower's position, where known:

On freezing farm prices (1958): Dirksen against; Cooper for; (President against).

On eliminating bonuses to states to regulate bill board displays on interstate highways: Dirksen for; Cooper against; (President against).

On new rules for senate (1957, making it harder to filibuster): Dirksen against; Cooper for.

On building federal dam at Hells Canyon: Dirksen against; Cooper for; (President against).

On self-financing plan for Tennessee Valley Authority: Dirksen against; Cooper for; (President against).

On censuring the late Sen. Joseph R. McCarthy (R-Wis): Dirksen against; Cooper for.

Twinsburg Roof Firm Destroyed by Blaze

AKRON, Ohio (AP)—The Twinsburg Miller Corp., which makes roofing materials in nearby Twinsburg, lost its main plant in a fire Sunday. Firemen from Hudson, Macedonia and Northfield helped Twinsburg firemen battle the blaze for seven hours. Jack C. Lawrence, president of the firm, estimated the loss at \$40,000.

10-YEAR-VETS — Seated left to right, are Leonard L. Campbell, Charles O. Hart, Florence E. Stahr, Betty J. Morrison, Mary F. Poling, George W. Sparks and Ralph J. McCain. Standing, left to right, are Carl W. Seymour, James B. Trimmer, Thomas L. Starkey, Ralph DeLong, George Skaggs, Wayne E. Stewart and Clyde R. Stinard. These 14 employees were hired by Circleville Lamp Plant of the General Electric Company in November and December of 1948 and are the first here to receive 10-year service pins, according to plant manager, E. G. Grigg. These 14 employees remain of the 45 hired during 1948 when production of fluorescent lamps began in Circleville. (Photo by Beaver Studio)

Envoy Sees Quick Accord For Cubans

HAVANA, Cuba (AP) — The American ambassador to Cuba says he thinks a new government for the revolt-torn island will form quickly.

That's the report Sunday night

by Dave Roberts, Cincinnati Enquirer travel editor, who said Envoy Earl E. T. Smith told him:

"There has been confusion, of course, but we could have seen a blood bath the like of which Cuba never experienced before."

"I am now convinced that we have passed the worst and the situation will continue to level until the new government is completely established."

The ambassador also said he was impressed by quick accord between rebel troops of Fidel Castro and Cuban army units.

He said, "we were highly impressed when we saw the close fraternization that was going on between soldiers of the 26th of

regular army."

He said Castro forces are "making every effort to return the city (Havana) to normal as soon as humanly possible."

New Straitsville's Ancient Mine Fire Still a Problem

NEW STRAITSVILLE, Ohio (AP)—The famous New Straitsville mine fire is still a plague to residents of this Perry County village, 74 years after the underground inferno was ignited.

This past week, New Straitsville citizens were bluntly reminded of the fire that boils under their village when a section of Ohio 261 disappeared in a haze of smoke.

Highway Department workers, called to fill the cave-in, said the highway collapsed when the mine fire ate too close to the surface. Constant traffic over the hollow section caused the roadway to drop, leaving a smoke-belching hole which required truckloads of stone to fill.

Highway officials also undertook to save a second section of Ohio 216 that is endangered by burning coal. The berm of the road, just inside the village limits, is breaking away, threatening to cause a landslide.

Some older residents maintain the fire is from a "gob pile," (coal refuse collection), of a long-defunct mine. Others say it is part of the mine fire ignited during the infamous strike of 1884.

Regardless of its cause, Highway Department men have had to dig away tons of burning coal and hot earth to halt the spread of the fire under the pavement.

Recent outbreaks of the fire served as ample contradiction of reports the fire is dying out. Such reports have been heard recently, but long-time New Straitsville residents say the conclusions may have been reached by persons unfamiliar with the habits of the subterranean conflagration.

Smoke and steam from the burning coal is not easily seen on clear days. It is readily visible on wet or humid days. Consequently, many travelers looking for signs of the mine fire are disappointed if they arrive in New Straitsville on a sunny day. A visitor on a clear day may have started reports the fire is dying out.

Field men for the Ohio Division of Mines concur with New Straitsville residents in the opinion that the fire will burn for years. One mine-wise worker said the seams of coal are thick enough and so widespread that they will continue to burn for many years, despite measures to halt the fire.

A state mine safety spokesman said his office receives frequent calls to test smoke in mines adjoining the burning coal field. Often, he said, the smoke is from blasting operations, but the source is misunderstood by miners conscious of the burning coal near them. On the other occasions, traces of smoke have been found in neighboring mines, indicating possible seepage from the fire.

Attempts to extinguish the blaze were made during the WPA days of the mid-30s. Mine entrances were sealed in the hopes of killing the fire through lack of oxygen. But these efforts have apparently failed. Mining men point out the coal is fed oxygen through various means. When the fire smolders close to the surface the ground crumbles and air reaches the hot coals, with the needed oxygen.

Air also reaches the coal from old mine entrances, and frequently strip mine operations dig into the burning veins, admitting oxygen.

Opinions on when, if ever, the fire will die out are as varied as stories of how the fire started.

The blaze started during the bit-

ter and prolonged strike of 1884. Accepted as accurate here is the statement that the 1884 strike led to the birth of the United Mine Workers of America.

Popular legend has it that the fire was ignited by striking miners who reportedly set fire to cars loaded with coal and then shoved the burning cargo into the bowels of the earth. These burning cars are supposed to have set fire to the existing mine and spread to unmined sections.

But old-time union men deny the strikers started the fire. A grandson of a labor leader of that era recalled his grandfather always maintained the fire started accidentally.

The grandfather often told his family the blaze started through an electrical spark that caused an explosion in the untended mine. According to the grandfather, the fire could have started under normal working conditions, but because it coincided with the strike the blame was laid on the strikers.

Either way, the mine fire, which will be 75 years old this year, has brought to New Straitsville much

RIGHT UP HIS ALLEY—Bowling is right up Lewis MacDonald's alley in Port Huron, Mich., for the kegel carpenter built himself a regulation lane in his two-car garage, installing the bed in his "space" time. Mrs. MacDonald sets the pins while hubby bowls and vice-versa.

Nickel Plate Engineer Dies at Age of 73

DOVER, Ohio (AP) — Funeral services will be held in East Sparta tomorrow for August J. Hegele, 73, a civil engineer with the Nickel Plate road for a quarter of a century. He retired in 1950. Hengele died Saturday at his home in nearby Zoar. His major projects with the Nickel Plate included building a giant car-dump coal docks at Huron, Ohio. He had lived in Berea, a Cleveland suburb, for 40 years but returned to the family homestead at Zoar after retiring.

Double Birthday

DEFIANCE, Ohio (AP)—A daughter and a granddaughter arrived the same day in City Hospital for Mrs. Victor Hartzell Sr. Mrs. Hartzell gave birth to her 15th child, Suzanne Lynne. Her daughter-in-law, Mrs. Victor Hartzell Jr., bore her first child, Mary Catherine.

Key to Cancer in 1959?

There is something fresh and inviting about the beginning of a new year; a happy contemplation about events which could occur, accomplishments which might be made, fills the mind. Only a brief glance is taken backward over the successes and failures of the past year. Too much concentration is needed for the unfolding tasks of the future to spend more than a moment reviewing the past.

Of the hopes and plans for 1959, who can say how many will bear fruit? There is one campaign, now building up a full head of steam, which has the best wishes of everyone for success in 1959 — the search for a drug cure for cancer.

With an annual outlay of \$16 million, the federal government has opened what Secretary Flemming of the Health, Education and Welfare Department calls "one of the most extensive efforts ever undertaken to find a cure for a major disease." Seventy-eight universities, 19 private research concerns and other groups and individuals are sharing 140 special federal grants in a concentrated effort to wipe out the number two killer.

No one at this point will venture a guarantee that the campaign to find the nemesis of cancer will succeed in 1959, but the enlarged scope of research to that end breeds optimism. Even if a vaccine is not found to be the answer to a revolutionary breakthrough of the stalemate against this

disease, there are bound to be refinements in present methods of treatment.

There are two types of treatment against cancer: radiation and surgery. Although both have been used extensively for some years, new techniques have increased the effectiveness of each. In the last quarter century, which has shown perhaps the greatest medical advances of any period in history, the cure rate for certain types of cancer has risen from 6 per cent to about 40 per cent. The medical world is far from satisfied with even this remarkable improvement, thus the current increased activity in cancer research.

It is easy to recall predictions made at the beginning of 1958 and for several years before it that the antidote to cancer was near. It has always been near in the sense that only one key is needed to unlock the secret, and that key may be found at any time. The additional knowledge and aid cancer researchers have received in the past year make 1959 seem a more likely candidate for success than was its predecessor.

Safety Belts, Life Savers

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Safety belts in automobiles could save at least 19,000 lives in the country each year and reduce injuries by 50 per cent, a Cornell University research group estimates.

Motor cars now kill someone every 14 minutes ... and injure someone every 23 seconds.

Love this sign on the fence of a Texas yard bordering a golf green: "I'm a golfer, too, and I understand. But we are raising three little children behind this fence. Please try to refrain from enriching their vocabularies."

The brief leaf: Scientists figure that each year leaves trap and store from the sun energy equal to that released by burning 300 million tons of coal.

The Romans really believed in a clean army ... their troops built portable baths and carried them along on battle campaigns. Most Americans seem to have lost the art of walking ... but U.S. factories still turn out up to 5,000 pairs of shoes a minute.

Poor posture is now becoming

common among American children as young as 4 years old ... some authorities blame it on lack of enough protein in the diet ... Incidentally, studies now show that farm diets are better in most nutrients than those of city people. How many Christmas cards did you get? ... The average family now sends out 65 cards, the average business firm about 145 ... the three-billion Christmas cards mailed this year weighed about 100,000 tons ... which explains why many mailmen prefer the Fourth of July.

Don't feel bad if you can't figure out why moths always fly to the light ... scientists have many theories, but proof is difficult. Here's some good advice from international attorney Arthur W. A. Cowan: "Don't ever worry about getting even with a man if you have to stoop to his level to do so."

Denise Lor, the singer, has an unusual idiosyncrasy ... before singing, she "warms up" by holding an ice cube in her mouth for five minutes ... her explanation: "I read somewhere it's good for the throat."

Julia Meade, perhaps televi-

sion's leading "pitch lady," earns about \$150,000 doing commercials ... She has 75 cocktail dresses in her wardrobe.

How many juvenile delinquents do we have? ... roughly 500,000 children aged 10 through 17 appear in court each year ... that's about 2.2 per cent of the U.S. children—or roughly one out of every 45.

In the pre-Civil War era 75 per cent of Southerners owned no slaves at all. Only 25 per cent of the U.S. land area is suited to growing crops.

Among the delicacies that Marco Polo, the 13th century globe-trotter, found in China were spaghetti and ice cream ... but positively no chop suey.

How often do you bathe your dog? ... the American Humane Assn. says that three or four times a year is plenty ... if the animal is brushed and combed regularly. It was Albert Einstein who observed, "The man who regards his own life and that of his fellow creatures as meaningless is not merely unhappy but hardly fit for life."

Julia Meade, perhaps televi-

Time for Congress to Think

The year goes out; another is announced mid jubilation and excitement and then Congress prepares to meet. I have a friend who drinks his liquor all year round but never on New Year's Eve. He says that New Year's Eve is amateur night for drinkers and he declines to be associated with amateurs. On New Year's Eve, he drinks coffee.

This makes me think of the new Congress which includes many amateurs and many newcomers who are reputed to believe that the function of the Federal Government is to spend money which it does not possess. The Government of the United States possesses no money of its own, except a gold reserve much of which has been depleted by payments to other nations.

What the government does possess is the power to tax its citizens, a power which may be employed with sound economic judgment or with prodigality leading to virtual confiscation and flight of capital. It is the latter state that we are currently in, with billions of dollars seeking safety abroad in tax havens, for only they can afford the expense of the operation.

The new Congress can continue piece-meal appropriations, so that nobody actually knows what the cost of government is, or it can become sufficiently sound to recognize that we have been forced by historic circumstances to enter upon a huge program of experimentation with costly, non-orthodox weapons of war, each one of which costs a fortune, and that while we are so engaged this nation cannot afford the extravagances of government which became customary in lush periods of great prosperity and comparatively small costs.

A great Congress might make a slogan of "First Things First." A cheap Congress could use the

next two years to play babyish politics with the 1960 election in view and without giving a thought to the peril that the Republic is in danger from within.

For while the enemy involves us in new situations at will, internally we are permitting an inflation of the currency to endanger our existence. And when such countries as West Germany, France and Great Britain are actually getting on their feet again economically, we are growing weaker only because our courage is small in the face of a clamoring mob which declines to understand what money means, except that it wants more of it no matter whether more is actually worth less.

The Christmas strikes are an example of how dumb labor leadership can be, particularly the strike of the newspaper truckmen, the very bottom of the heap in this profession.

This is where we stand at the moment of the opening of Congress and it is only the stupid who are unwilling to recognize so simple a fact as that prices in the stock market as in the grocery store go up as money is worth less and that therefore the stock market is not a good gauge of the health of a nation. In fact, it is a cause for confusion. It is sounder to study United States Government bonds. What are they worth in the market? What discount do they call for? What premium does the government have to offer to sell them? Who buys them? Are the sales free or forced?

There is the thermometer of the United States and that should be studied carefully, for the United States Government bond represents a valuation of the economic well-being of the country. Perhaps some of these new-

er Congressmen, amateurs and newcomers, who feel that they can do so much during the next two years might study a little, do a little homework and learn something of the state of the country it is their function to save.

The new Congress faces grave responsibilities. Should war come, it might be our last Congress or surely our most important one. The amateurs and newcomers would do well to learn something about the nature and functions of Congress before they undertake to spend this nation into such a spiral of inflation that an American dollar might not be worth more than a Kerensky rouble. It may take a little homework, but then the job pays well nowadays.

At any rate, the public needs to be vigilant and watch for sound, conservative leadership—and support it.

Youthful Husband Held In Shooting of Mate

DAYTON, Ohio (AP)—Nineteen-year-old James Rose told sheriff's detectives here he thought the .22 caliber revolver he pulled from a drawer was empty when he jokingly pointed it at his 18-year-old wife, Linda, Sunday and pulled the trigger. The gun fired and Mrs. Rose, the mother of a 3-month-old boy, was killed. Rose is being held on investigation of homicide.

Summit Child Missing

AKRON, Ohio (AP)—A search of the Summit Lake area in southwest Akron was underway early today for 7-year-old Linda Marie Selmon. The child, daughter of Mrs. Lucy G. Selmon, 329 Lake St., went out to play at Noon Sunday and failed to return. The lake is about a block from her home.

Try and Stop Me

By BENNETT CERF

FRED RUSSELL tells about a spiffed gent sitting in Row 65 at a bowl football game who staggered to his feet time and again to yell, "Hey, Gus! Look at me up here!" Whereupon, down in Row 20, another man would rise, look up, and wave ecstatically. Finally, however, the man in Row 20 had enough. "Stay in your seat and watch the game," he shouted testily. "And besides, my name isn't Gus."

TV producer in Hollywood was complaining of the trouble he had encountered casting the role of a detective in a new aerial just contracted for. "Be patient," counseled Frank Sinatra. "It's a well-known fact that not every Tom and Harry can be a Dick!"

Fever Blisters Abound Now

By Herman N. Bundesen, M.D.

This is the time of year when colds and cold sores are most prevalent. Actually we can develop cold sores or fever blisters just about any time, since the virus causing this nuisance is always present on our skin.

Fortunately, however, our body is able to stave off most cold attacks unless something happens to lower our natural resistance. Colds, naturally, knock our resistance off balance and fever and cold sores are apt to follow.

Other factors which might help to start a siege of cold sores include upsets of the gastrointestinal tract and exposures to wind and the sun.

Cold sores can occur one at a time or in groups. They are tiny blisters filled with a straw-colored fluid.

Right from the beginning they are annoying. They usually itch and burn. Eventually they may become tender and quite painful.

Usually they occur on the lips and in other spots where the skin meets the mucous membrane. Ordinarily, if the cold sores aren't too troublesome, you can just leave them alone and they will dry up by themselves.

They probably will leave small crusts, but these, too, will disappear within a week or two without leaving any trace of a scar.

If the pain is too annoying, you probably can relieve it by applying a little menthol, camphor ice or spirits of camphor.

Some unfortunate persons are repeatedly bothered by numerous

If the pain is too annoying, you probably can relieve it by applying a little menthol, camphor ice or spirits of camphor.

Some unfortunate persons are repeatedly bothered by numerous

cold sores. If you are one of them, you should see your doctor. There is a lot he can do to help you.

For one thing, he may advise a series of smallpox vaccinations. Yes, that's right, smallpox vaccinations.

In addition to giving protection against smallpox, these inoculations also prevent the cold sore virus from gaining a foothold.

Question and Answer
H.N.G.: Should a patient in whom an ulcer is presumably healed have repeated X-ray study?

Answer: Yes, it is important that such patients be periodically surveyed by X-ray studies.

Accomplice

FULTON, Ky. (AP)—Farmer Otis Lecornu couldn't understand how his goat always got out of its pasture.

One day Lecornu hid behind a tree. The goat climbed onto a stump in the field and started baaing. A burro sauntered over to stump and the goat leaped onto his back.

Then the burro trotted to the fence and the goat bounded over the barrier.

Pepper Collector

TOLEDO, Ohio (AP)—James Johnson, 47, was arrested on a theft charge after police found him in an alley with an armful of peppers and traced a trail of dropped peppers from Johnson to the open door of a produce firm.

Time for Congress to Think

By George Sokolsky

The year goes out; another is announced mid jubilation and excitement and then Congress prepares to meet. I have a friend who drinks his liquor all year round but never on New Year's Eve. He says that New Year's Eve is amateur night for drinkers and he declines to be associated with amateurs. On New Year's Eve, he drinks coffee.

This makes me think of the new Congress which includes many amateurs and many newcomers who are reputed to believe that the function of the Federal Government is to spend money which it does not possess. The Government of the United States possesses no money of its own, except a gold reserve much of which has been depleted by payments to other nations.

What the government does possess is the power to tax its citizens, a power which may be employed with sound economic judgment or with profligacy leading to virtual confiscation and flight of capital. It is the latter state that we are currently in, with billions of dollars seeking safety abroad in tax havens, for only they can afford the expense of the operation.

The new Congress can continue piecemeal appropriations, so that nobody actually knows what the cost of government is, or it can become sufficiently sound to recognize that we have been forced by historic circumstances to enter upon a huge program of experimentation with costly, non-orthodox weapons of war, each one of which costs a fortune, and that while we are so engaged this nation cannot afford the extravagances of government which became customary in lush periods of great prosperity and comparatively small costs.

A great Congress might make a slogan of "First Things First." A cheap Congress could use the

next two years to play babyish politics with the 1960 election in view and without giving a thought to the peril that the Republic is in danger from without and within.

For while the enemy involves us in new situations at will, internally we are permitting an inflation of the currency to endanger our existence. And when such countries as West Germany, France and Great Britain are actually getting on their feet again economically, we are growing weaker only because our courage is small in the face of a clamoring mob which declines to understand what money means, except that it wants more of it no matter whether more is actually worth less.

The Christmas strikes are an example of how dumb labor leadership can be, particularly the strike of the newspaper truckmen, the very bottom of the heap in this profession.

This is where we stand at the moment of the opening of Congress and it is only the stupid who are unwilling to recognize so simple a fact as that prices in the stock market as in the grocery store go up as money is worth less and that therefore the stock market is not a good gauge of the health of a nation.

In fact, it is a cause for confusion. It is sounder to study United States Government bonds. What are they worth in the market? What discount do they call for? What premium does the government have to offer to sell them? Who buys them? Are the sales free or forced?

There is the thermometer of the United States and that should be studied carefully, for the United States Government bond represents a valuation of the economic well-being of the country. Perhaps some of these new-

er Congressmen, amateurs and newcomers, who feel that they can do so much during the next two years might study a little, do a little homework and learn something of the state of the country it is their function to save.

The new Congress faces grave responsibilities. Should war come, it might be our last Congress or surely our most important one. The amateurs and newcomers would do well to learn something about the nature and functions of Congress before they undertake to spend this nation into such a spiral of inflation that an American dollar might not be worth more than a Keresky rouble. It may take a little homework, but then the job pays well nowadays.

At any rate, the public needs to be vigilant and watch for sound, conservative leadership—and support it.

Youthful Husband Held In Shooting of Mate

DAYTON, Ohio (AP)—Nineteen-year-old James Rose told sheriff's detectives here he thought the .22 caliber revolver he pulled from a drawer was empty when he jokingly pointed it at his 18-year-old wife, Linda, Sunday and pulled the trigger. The gun fired and Mrs. Rose, the mother of a 3-month-old boy, was killed. Rose is being held on investigation of homicide.

Summit Child Missing

AKRON, Ohio (AP)—A search of the Summit Lake area in southwest Akron was underway early today for 7-year-old Linda Marie Selmon. The child, daughter of Mrs. Lucy G. Selmon, 329 Lake St., went out to play at Noon Sunday and failed to return. The lake is about a block from her home.

KILL OR CURE?

Some folks used to eat tobacco for medicinal purposes. They thought the ingredients of tobacco would kill any poison in the system. We know better now—thanks to medical research. We've learned, too, that it's best to ask your physician's advice before taking any medicines. Be wise in matters of health. When you're ill, let your doctor do the diagnosing and prescribing. Then, if he orders medication, come to us for prescription service.

The World Today

By James Marlow

WASHINGTON (AP) — The new Senate explodes Wednesday in a fight over changing its rules. It may last weeks and much of it will sound dull. But it's far-reaching. This is an ABC on it.

A bloc of northern Democrats and Republicans wants to change Senate Rule No. 22, which makes it so hard to smash a filibuster that none has been broken in 31 years.

The Senate prides itself on its rule of practically unlimited debate. But debate can have two purposes: To discuss an issue fully before a vote on it or to prevent a vote altogether. The latter is the filibuster.

The 98 senators will do most of their business — passing bills — by just a simple majority of those present on the floor at voting time. A full majority, harder to get, would be 50 of the 98.

But under Rule No. 22, shutting off a filibuster against a measure — to let the Senate by a simple majority vote decide its fate — requires a two-thirds vote of all the senators, or 66 of the 98.

Getting such a two-thirds vote is almost impossible, except in some national emergency. The reason: So many senators, not just southern Democrats, favor the principle of unlimited debate.

It isn't hard for each to foresee the time when he, too, may want to use it to prevent passage

of legislation he intensely opposes. The filibuster has been employed against various proposals in the Senate's long history. In recent years southerners particularly have used it, and successfully, to prevent passage of civil rights bills.

The northerners, favoring new civil rights legislation, protest that Rule No. 22 permits a minority in the Senate, where southerners are in a minority, to thwart a majority.

Southerners argue that a minority under Rule No. 22 can protect itself against the unwelcome will of a Senate majority.

But why all the fuss about changing Rule No. 22? Since the Senate adopted this rule itself, can't it change it easily? Not easily. Here's why:

No time limit of any kind can be put on a filibuster against a proposal to change the rule.

This raises such an obstacle to changing rules once the Senate is in business that the northerners have settled on another plan. It failed in 1953 and again in 1957 and may not work this time.

Senators are elected for six years. Although every two years the seats of one-third of them are at stake in the elections, the other two-thirds are still in the Senate serving out their unexpired terms.

Because of this, opponents of any change in Rule No. 22 argue that even when there is a new

session of Congress, as there is this year, it does not mean a new Senate. They say:

The Senate is never a new but a continuing body. So in each new session of Congress the Senate continues to have the same rules under which it did business in the preceding Congress.

The northerners will argue Wednesday, as before, that each new session of Congress means a brand new Senate and as such the new Senate does not have to inherit rules but should adopt its own.

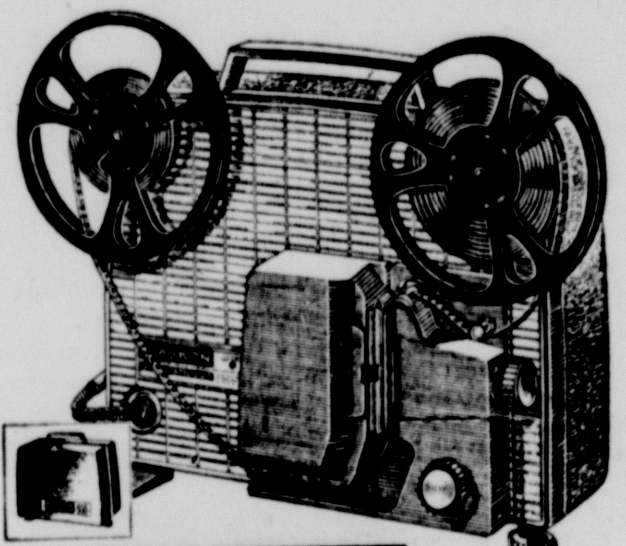

So they will ask Wednesday, before the Senate is fully in business, that it adopt new rules. If they can win that point, they will ask that Rule No. 22 be changed before it's adopted. They reason:

If the Senate agrees that the old rules don't apply until they are freshly adopted, then Rule No. 22, with its protection for a filibuster against a rule change, doesn't apply, doesn't exist, and can't work.

In short, the northerners argue: Until new rules are adopted, the Senate will not be operating under Rule No. 22 or any other previous rule but only under parliamentary law.

This will lead to argument on whether parliamentary law, where rules are concerned, requires a simple majority or two-thirds vote. And no doubt there'll be a filibuster of some kind.

All this should cause a parliamentary snafu on a grand scale.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made

astounding statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H. At your druggist. Money back guarantee.

Ohions Advised To Become Used To 'Sonic Boom' - Here To Stay

COLUMBUS, Ohio (AP) — The sonic boom will be heard in the land this year of 1959, and the Ohioan is apparently going to have to learn to live with it.

So is the military, which gets the blame.

Fighter squadrons at Columbus, Dayton and Youngstown are equipped with truly supersonic jets. Bases at Columbus, Dayton and Wilmington are being prepared for supersonic bombers.

And the Ohio Air National Guard has been waiting since last May for even faster jet fighter-bombers for its squadrons at Columbus, Springfield, Mansfield and Toledo.

Add to this Ohio's strategic importance, and it's a safe conclusion that the sky over the state will be filled with planes flying faster than sound in '59.

Get right down to it and sound—or anyway, noise—is the problem. Ohio has plenty of noise anyway, but this is noise with a kick.

Comes a sonic boom, and your first thought is: "Something big and heavy just fell over up in the attic."

If it was a sonic boom, it started a lot higher than the attic. "Way up there, probably too high to be seen, a jet traveled faster than sound. That's 761 m.p.h. at sea level, but 640 m.p.h. at 35,000 feet. It varies with altitude.

To the pilot, crossing the sound barrier probably meant watching the airspeed indicator needle flick over. Once in a great while, a pilot sees the shock waves in the form of a fog bank which follows the plane as it turns at supersonic speed. It's caused by moisture in the air and the energy of shock waves causing condensation.

About the most useful comparison for explaining is the rock thrown into a still pond. As the

ripples created by the splash slap against shore, so sound is created by wavelets of varying pressure striking the ear.

A strong pressure wave pushed by a sudden strong release of energy, then, is an explosion. Together, these strong releases are called shock waves.

One surrounds the nose of a jet as it exceeds the speed of sound. As long as the jet goes faster than sound, the shock waves stay there, as do smaller, less intense waves around wing, canopy and tail surfaces.

The faster the jet goes, the sharper the angle these waves spring loose and continue to travel—faster than sound—in the direction the jet aimed them.

As they go, they change from pointed to rounded and the strong-

er ones absorb the weaker. Since they are strongest at the point nearest the plane, strength tends to remain in the center. If the plane was in a dive when the wave detached, the center is apt to strike the ground first, and the sonic boom will be loud.

The farther the wave has to travel, though, the more its strength is sapped by spreading, and the weaker it becomes.

When it detaches from a jet in level flight, its strong center point continues on the plane's level course and dissipates. If the jet continues to fly faster than sound, the trailing edge of the still-attached wave reaches the ground. Since it bends backward from the jet, it will be heard after the plane has flown over.

It's going on six years since the

first of the truly faster-than-sound jets were delivered to the military, and about nine years since supersonic speed and the thunderclap of the sonic boom were linked.

Headquarters for research on the nationwide noise problem has been Wright Air Development Center at Dayton.

As information officers of the Air Force—who usually have to placate irate sonic boom "victims"—explain it:

"To meet the menace of enemy invasion of our homeland, we have had to develop aircraft which exceed speed of sound in level flight.

"Previously, the only way even the fastest fighter could blast through the sound barrier was in a power dive from great height. At the precise moment the first of them burst through and shudderingly entered the eerie world of supersonic speed, there descended on the earth below a walling thunderclap and shock.

"One writer said: 'Man, in his relentless search for a better world, has discovered a new way to break windows.'"

The military goes along with those broken windows. But call up to say a sonic boom cracked your plaster, and you may meet polite skepticism.

Air Defense Command—responsible for intercepting enemy air attacks — says cracked plaster and foundations cannot be caused by a sonic boom. Although pressure per square foot may be 10 times greater than produced by the strongest recorded thunderclap, it should be no greater than five pounds per square foot on the ground.

And, says the Air Force, "Scientists and engineers observing the effects of shock waves generated by atomic explosions have never observed structural damage to the flimsiest of structures at pressures less than 70 pounds per square foot."

To operate supersonic jets below the speed of sound would be roughly akin to driving a tank backward so sensitive people would not see its gun, the Air Force says. And mufflers lower a jet's efficiency to a point where it is no match for an enemy counterpart.

Move bases to remote regions, the military says, and big cities are more vulnerable to attack. Besides, it would cost even more than the present two billion dollars a year to replace men who would leave the service because of having to serve under such isolated conditions.

Saltcreek Valley News

Mrs. Robert Collins was returned from Berger Hospital this week to the home of her parents, Mr. and Mrs. Nelson Waliser in our valley.

Mr. and Mrs. Dalton Delong and Miss Barbara Defenbaugh are spending the holidays with Mr. and Mrs. Robert Jones and sons Stewart and Alex of Williston, Florida.

Miss Patricia Strous, student at Ohio University, Athens, and Miss Edith Defenbaugh, student at Ohio State University, are spending their vacations at their parents' homes, Mr. and Mrs. H. A. Strous and Mr. and Mrs. W. E. Defenbaugh in our valley.

Christmas Day guests at the Mowery Luckhart home for turkey dinner were Mr. and Mrs. Gail Heffner, Mr. and Mrs. Max Luckhart and family, Mr. and Mrs. David Luckhart and Tania Renee, Mr. Herb Vincent, Mrs. Edna Luckhart, who remained until Sunday.

Mr. and Mrs. Donnie Maxson, Donie Jr., Melanie Lyn, Lonie, Mr. and Mrs. Ramon Maxson and Eric, Mr. and Mrs. David Luckhart and Tania Renee and the Fox families of Columbus all were the supper guests of Mr. and Mrs. Clarence Maxson Christmas night.

Mr. and Mrs. Franklin Strous and sons spent New Year's Day with his parents, Mr. and Mrs. Fred Strous and son Carl.

Mr. and Mrs. Herb Vincent, Mr. and Mrs. Howard Bryant and Roxan were entertained to a turkey dinner Christmas night at the Max Luckhart home.

Mr. and Mrs. Russell Jones, Mr.

and Mrs. Glen Matthews and Cindy, and Mr. Ed Jones spent Christmas with Mr. and Mrs. Nelson Jones, Conie and Jeff.

Mr. and Mrs. Charles Kinzler of Lancaster were callers Sunday at the home of Mrs. Dora Reichelderfer.

The following were entertained Sunday at the home of Mrs. R. D. Hinton to a turkey dinner: the Rev. and Mrs. Thompson, Hallsville, Mr. and Mrs. Berlin Hinton, Karen Dee and Lois, Mr. and Mrs. George Bivens and daughter Vicki Lynn of Columbus, Mr. and Mrs. W. E. Luckhart, Mrs. O. S. Mowery and Mrs. Edna Luckhart, who remained for a week's visit.

Mr. and Mrs. Loren Hinton and daughters of Columbus, and Miss Miriam Hinton spent Christmas with their parents, Mr. and Mrs. Kelly Hinton, near Laurelvile.

Mr. and Mrs. C. W. Mowery and son Harry attended the all day meeting of the Adelphi W.S.C.S. at the home of Mrs. Helen Hubbel and called on friends in our valley Tuesday of this week.

The following were at the home of Mr. and Mrs. Russell Jones and saw the California-Iowa game on colored T.V. New Year's Day: Mr. and Mrs. Nelson Jones, Connie and Jeff, Mr. and Mrs. Glen Matthews and Cindy, Mr. Franklin Strous and Gary, Carl Strous, Charles Jones and son, Mrs. William Defenbaugh, Nellie F. Mowery and Carl Kreider.

U. S. Army Engineers estimate the length of the Mississippi River as about 2,350 miles.

FUGITIVES FROM THE FBI

CLARK SAM SMITH

(In co-operation with J. Edgar Hoover, FBI Director, this newspaper is running a series of descriptive articles on criminals wanted by the FBI.)

CLARK SAM SMITH is being sought by the FBI for alleged violation of the Bank Robbery Statute. He has been charged with participating with two others in the Feb. 27, 1958, robbery of \$8,600 from the Silver Leaf Savings and Loan Assn., of Chicago, at which time employees and customers present were herded into a back room at gun point.

Smith reportedly was the driver of the getaway car and was identified as the one who entered the association office an hour prior to the robbery to change a \$10 bill. He is now the only participant of the robbery still at large.

The fugitive, whose aliases include Ray Brent, Raymond Clark, William Keninof, Robert C. Larson, Jack L. Redman and Samuel James Winston, has worked as bartender, butcher, laborer, mechanic and railroad switchman.

An indictment was returned by a Federal Grand Jury at Chicago, on March 11, 1958, charging Smith with Bank Robbery. He has been previously convicted of obtaining money under false pretense. Since firearms were used by the alleged accomplices in the bank robbery, Smith should also be considered dangerous.

DESCRIPTION: Age, 37; Born, Edgar, Neb.; Height, 5 feet 8 inches; Weight, 172 to 180; Build, medium; Hair, brown; Eyes, brown; Complexion, medium. Has two small scars on right cheek, V-shaped scar on forehead of left hand, left hand may be partially paralyzed. Reportedly drinks to excess and is said to be proficient with tools.

INFORMATION concerning fugitive should be telephoned to the nearest FBI office. Distributed by King Features Syndicate

CLARK SAM SMITH

(In co-operation with J. Edgar Hoover, FBI Director, this newspaper is running a series of descriptive articles on criminals wanted by the FBI.)

CLARK SAM SMITH is being sought by the FBI for alleged violation of the Bank Robbery Statute. He has been charged with participating with two others in the Feb. 27, 1958, robbery of \$8,600 from the Silver Leaf Savings and Loan Assn., of Chicago, at which time employees and customers present were herded into a back room at gun point.

Smith reportedly was the driver of the getaway car and was identified as the one who entered the association office an hour prior to the robbery to change a \$10 bill. He is now the only participant of the robbery still at large.

The fugitive, whose aliases include Ray Brent, Raymond Clark, William Keninot, Robert C. Larson, Jack L. Redman and Samuel James Winston, has worked as bartender, butcher, laborer, mechanic and railroad switchman.

An indictment was returned by a Federal Grand Jury at Chicago, on March 11, 1958, charging Smith with Bank Robbery. He has been previously convicted of obtaining money under false pretense. Since firearms were used by the alleged accomplices in the bank robbery, Smith should also be considered dangerous.

DESCRIPTION: Age, 37; Born, Edgar, Neb.; Height, 5 feet 8 inches; Weight, 172 to 180; Build, medium; Hair, brown; Eyes, brown; Complexion, medium. Has two small scars on right cheek, V-shaped scar on forefinger of left hand, left hand may be partially paralyzed. Reportedly drinks to excess and is said to be proficient with tools.

INFORMATION concerning fugitive should be telephoned to the nearest FBI office. Distributed by King Features Syndicate

HE'LL COACH—Roy Campanella, although still paralyzed from the waist down following his automobile accident early in 1958, received a belated holiday gift from the Los Angeles Dodgers when the club announced Campy would be a coach in the spring training season. Campy will help out the younger players at Vero Beach, Fla., where Bums train.

Elyria Telephone Rate Upped by 7 cents Day

Elyria, Ohio (AP)—Elyria Telephone Co. has announced its rates are going up to: \$6 for a one-party customer; \$5.25 for two-party; \$4.60 for five party; and \$4.35 for 10-party. The new rates, approved Saturday by the utilities commission, will cost the average customer seven cents more a day.

Right Name

MADISON, Wis. (AP)—Young Robert Bockhop made no mistake when he named his choice Berkshire hog "I'm It."

"I'm It" was chosen the grand champion barrow at the Southern Wisconsin Junior Live Stock Exposition. And Robert received a \$711 check for the auction sale of his 237-pound hog. That's \$3 a pound.

PLUM DUFF — A favorite old Scottish pudding, plum duff, is served on Christmas in Scotland. Vincent Bowers is taking a whiff of the "plum duff" his mother, Mrs. Clarence E. Bowers is about to serve. (Staff Photo)

Plum Duff Great Scotch Holiday Dessert

A dessert you might like to try at the close of this gala holiday season is "Plum Duff," an old Scottish recipe.

Mrs. Clarence E. Bowers, 138½ E. High St., a native of Edinburgh, Scotland, said the recipe is quite popular during the holiday season. "It is served on Christmas Day and it isn't Christmas without 'Plum Duff' in Scotland, she added.

She also said lucky charms are put in the pudding as a token of luck for the coming year.

Here is Mrs. Bowers' recipe for

Calendar

JUNIOR WOMEN'S CLUB, 8 p. m., home of Mrs. Francis Wirth, 1050 Atwater Ave.

WOMAN'S SOCIETY OF WORLD Service of the First EUB Church, 7:30 p. m., in the service center.

Mrs. Bowers said meals here in the United States compare somewhat to those in Scotland, although the vegetables are cooked longer in her native land.

For breakfast in Scotland the menu would consist of cereal (dry or cooked), eggs (poached, boiled or fried), bacon or sausage, toast with jelly or marmalade and tea. Soup, meat, potatoes, a green vegetable, custard pudding and coffee would be the luncheon menu.

At tea time butter and jelly sandwiches, tea and cakes or cookies are served.

The evening meal is served in four courses beginning with soup or juice (usually tomato), meat or fish with potatoes and vegetables. For dessert, ice cream or jello or cake is served followed by cheese and crackers and coffee.

Mrs. Bowers met her husband while he was on a tour of duty in Great Britain with the United States Air Force. She came to live in this country in July of 1954. They have two sons, Vincent, 5, and Douglas, 17-months.

Her parents are now living in Battle Creek, Mich. Her husband is the son of the late Dr. C. E. Bowers.

Old Hats, Stamps
On JWC Meet List

Members of the Junior Women's Club are to take sales tax stamps and an old hat to the meeting of the group, planned for 8 p. m. Thursday in the home of Mrs. Francis Wirth, 1050 Atwater Ave.

So They Say

To listen to his wife praising Fetherolf for the marvelous job we did on their T. V. set. Now they get perfect reception free from all defects.

Circleville, Ohio

Perennial 'Best Dressed' Relegated to Hall of Fame

TWO TOP BEST-DRESSED WOMEN—Two women tie for first place in the annual list of the world's best-dressed women, named by the Couture group of the New York Dress Institute. They are Countess Rodolfo Crespi (left) and Mrs. Winston Guest. The countess is the former Consuelo O'Connor. The 1958 winners were selected by written ballots sent to 2,500 fashion experts and observers throughout the world.

NEW YORK (AP)—The annual list of best-dressed women had a new look of its own today.

It was a completely new list. The perennial winners of the past were given permanent honors in a new fashion hall of fame, thus giving a newer generation of the elegantly dressed women of the world a chance to get on the list each year.

Among those elevated to places vacated by the former title holders were a former New York model and a New York socialite. They tied for first place this year in balloting by 2,500 fashion experts throughout the world. Results were announced Sunday by the New York Dress Institute.

The co-winners were Countess Rodolfo Crespi of Rome—the former Consuelo O'Connor, one of the noted O'Connor twins of New York cover girl fame—and Mrs. Winston Guest of New York and Palm Beach. Mrs. Guest long has been known for her elegant restraint in dress.

Others chosen for the 1959 best-dressed group were:

Mrs. Henry Ford II of Grosse

Point, Mich., Princess Margaret Rose of Britain, Countess Quintanilla of Madrid, Mme. Arturo Lopez-Willshaw of Paris, Mrs. William Randolph Hearst Jr. of New York, Mrs. Rex Harrison of London (film star Kay Kendall), Mrs.

Personals

Mr. and Mrs. Ezio Brooks and son, Robert, Route 3, have returned home after spending Christmas and the holidays with their daughter and family, Mr. and Mrs. Allen Horney and daughter, Beverly, Niles, Mich.

An historian comes forth with the news a certain Ralph Lane—not Sir Walter Raleigh—was the first Englishman to smoke tobacco. All we can say is that Sir Walter must have had a better press agent.

Thomas Bancroft Jr. of New York, Mrs. Norman K. Winston of New York and Paris, Mrs. Mel Ferrer (film star Audrey Hepburn, now living in Europe), Mrs. Stanley Rumbough Jr. (Dina Merrill, socialite-actress of New York), Mrs. David K. Bruce, wife of the U.S. ambassador to West Germany, and Mrs. Bruno Pagliai of Mexico (actress Merle Oberon).

More than two-thirds of the group are well below middle age, most are American and nearly all are active in careers, sports or other interests—making all something more than "clothes horses."

The fashion institute said it was decided to retire the previous constant winners to the permanent hall of fame because "their faultless taste in dress, without ostentation or extravagance, places them above annual comparison."

Those accorded this new distinction were:

The Duchess of Windsor, Mrs. William Paley of New York, Countess Edward Von Bismarck of Paris and Capri (the former Mrs. Harrison Williams), Queen Elizabeth II of Britain, Mme. Jacques Balsan of Palm Beach and New York (the former Consuelo Vanderbilt), Actress Mary Martin, film star and diplomat Irene Dunne and actress Claudette Colbert.

Austin Greenes Host Family Dinner on New Years Day

Mr. and Mrs. Austin Greene, Route 2, were hosts to a New Year's Day family dinner. The dinner was honoring Mrs. Dora McFadden of near Sabina, mother of the hostess. Guests were: Mr. and Mrs. John A. McFadden

and Joy of Dayton; Mr. and Mrs. Malon Trickler, Cheryl, Karen and Steven of Dayton; Mr. and Mrs. Thomas E. McFadden, Larry, Carol and Bruce of New Holland;

Mrs. Nellie McFadden, Ruth, Joe and Jane, Mr. and Mrs. John N. McFadden, and Mrs. Anna McFadden, Mr. and Mrs. Paul Stuckey and Kirk and Miss Carolyn Williams, all of Washington C. H.;

Mrs. Lucille McFadden and Miss Vivian McFadden of New Vienna; Miss Diane Johnson of Circleville, Mr. and Mrs. John Skinner, Scott and Jeffery of Clarksburg; Mr. and Mrs. Charles Bumgarner, Gary and Glenn of Springfield;

Mr. and Mrs. James Howard of Fairborn and Arthur, Richard, Dora Mae and David Green of the home.

U.S. Buying Power Said On Increase

WASHINGTON (AP) — Secretary of Labor Mitchell said today the purchasing power of working people generally has been greatly strengthened in recent months.

Considerable improvement has been noted in both unemployment and inflation, Mitchell said in a new year statement.

He said the business recovery in the last half of 1958 "has been especially gratifying because simultaneously the cost of living has halted its rise." A slight increase was reported in November, the month in which the weekly earnings of the average factory worker reached an all-time high of \$86.58.

Mitchell said the nation's 22 million women workers make up one-third of the total working population.

Looking to the new year, Mitchell predicted jobs will remain scarce early in 1959 but that non-farm employment will climb to the highest point in history before the end of the year.

Geneva Banker Dies

GENEVA, Ohio (AP)—A heart attack was fatal Sunday to Albert A. Searle, 74, president of the Geneva Savings and Trust Co. since 1941 and a former president of the Geneva board of education.

Why Blue Cross Is Best Buy

You receive Blue Cross benefits in hospital services—not some cash to apply toward paying your bill. And hospital services come high these days . . . usually more than any allowable cash payments.

Blue Cross provides coverage for necessary hospital service including care in semi-private room. More than 55 million persons in the United States—or every third person—are subscribers. Blue Cross is the hospital's own plan and you get the best service any hospital can furnish. It is the most LIBERAL plan available. Persons under 65 years of age who are self-employed or work where there are fewer than five employees may enroll. Those working where there are five or more employees are eligible for membership through a payroll deduction group.

For full information on forming a payroll deduction group visit enrollment headquarters. Billed at home members are covered under the 80-20 contract.

Tigers Stretch SCOL Lead In Downing Hillsboro Five

By J. I. SMITH III
Herald Staff Writer

The Circleville Tigers Saturday night stretched their hold on first place in the South Central Ohio League to two games as they downed Hillsboro, 54-44.

If the Tigers had lost, they would have dropped out of first position with Hillsboro taking over the top spot. Instead, Circleville claims a 4-0 slate, while Hillsboro is next with a 3-2 record.

The Tigers displayed deliberate ball control and even more self control to defeat a hot tempered and sometimes unmannered Hillsboro unit.

Surprise of the night was the benching of the Indians' ace rebounder and the SCOL's leading scorer, Milton Bosworth. Hillsboro Coach Ray Oliver failed to play Bosworth the first half for missing several practices last week.

BOSWORTH came off the bench in the second half and tallied 10 points, but it will always be a point of conjecture whether Bosworth could have made the difference between a Hillsboro victory or defeat.

The Tigers took a 13-8 first quarter lead after the contest was tied, for the second time, at 4-4. Tiger Captain Don Rowland scored seven of his 15 total game points in this period on deadly set shots from the front court.

The first canto was a successful one for Circleville as it shot 54 per cent to Hillsboro's 33 per cent. The tables were reversed in the second quarter as the Indians rallied and fought to a 24-24 deadlock at half-time.

Circleville led by as much as seven points in this stanza but failed to rebound, which was the case the entire game, aided Hillsboro in knotting the count.

Too often, the Tiger aggression stood and watched while Rowland attempted a field goal. Only the seven points, of 10 scored in the game by Larry Hannahs, saved Circleville from falling behind at intermission.

Hillsboro proved to have more scrap and Tiger personal fouls provided the Indians with eight of 16 points registered in the second canto.

AFTER THE LEAD exchanged hands three times early in the third period, Hillsboro jumped to a four point margin. Tiger Asa Elsea rallied the Circleville forces with six of his 10 points as the Tigers trailed by one point at the end of this stanza, 36-37.

Bosworth tallied eight points on

accurate jump shots to spell the difference. The Tigers employed a man-to-man defense during the game while Hillsboro countered with a 2-3 zone. Both quintets kept the other to the outside.

The fourth quarter was the most rousing of the battle, as the score was tied four times before Circleville went ahead to stay. The Tigers stopped Bosworth and his teammates with just two field goals.

Circleville notched 12 free throws in the final period as Hillsboro became rattled and fell behind, forcing them into a man-to-man defense to get the ball.

The Tigers remained "cool" under a barrage of Indian temperamental "flare-ups" and failed to respond when a Hillsboro player tried a little too hard. Mark this victory to sportsmanship on the part of Circleville.

Hillsboro shot 12 per cent from the field in the fourth period while Circleville hit for 27 per cent. Although Hillsboro was the better rebounding unit, Circleville's ball

Darby Wins Ninth over WJ, 77-45

Host Darby continued on its merry way with a 77-45 victory over hapless West Jefferson. This marked the third straight win for the Trojans without a defeat.

WJ went down to its ninth loss in ten starts and this was the third time it fell before a Pickaway County team. Both Ashville and Monroe have beaten the Darby Valley League team.

Darby experienced a strong first half, notching 49 points to WJ's 20. The Trojans took a 24-12 first quarter lead. The final half found Darby cooling off and giving its reserves plenty of action.

WJ used a man-to-man defense while the Trojans employed a 1-2-2 zone. According to Darby Coach Ned Reichelderfer, the Trojans played their best first half ball this season.

DARBY GUARD Tommy Liff, captured scoring honors with 25 points from the outside and on lay-ups off the fast break that worked well for the Trojans. Alvin Cox trailed Liff in the scoring with 17 points from the side and on the fast break.

Parson led WJ with 14 points, garnered on side court shooting. The Trojans led 62-34 at the third quarter mark. A total of 39 fouls were called, 23 on WJ and 16 on Darby.

The Trojans shot 65 per cent from the free throw line, making 21 of 32 attempts. WJ pumped in 15 of 28 offerings for 37 per cent.

Darby swept the evening of basketball with a 43-33 reserve win. Jerry Vance led the Trojan scoring with 12 points followed by teammates Roger Drummond and Eddie Hook, with 11 and 10 points respectively. Campbell was high man for WJ with 12 points.

control type of game "paid-off in spades" in the waning minutes of the fray.

CIRCLEVILLE wound up with a 37 per cent shooting average from the field, sinking 19 of 51 attempts. Hillsboro finished with a meager 28 per cent on 40 of 140 tries.

The teams scored the same number of times from the foul line, 16 each. Hillsboro held the percentage edge here, with a sizzling 69 per cent as the Tigers shot 57 per cent.

The game was marred by numerous fouls, especially as the contest went into its final minutes. A total of 35 were called, 20 on Hillsboro and 15 on the Tigers.

Turnovers were few. Hillsboro had eight and Circleville committed seven. Scoring honors went to Tigers Rowland and Shadley with 15 each. Shadley sent seven points through the nets in the last period. He tallied most of his markers from the side.

Top man for Hillsboro was Perin Johnson with 11 points followed by teammate Bosworth with 10. Bosworth was averaging about 20 points per game until Saturday night.

Circleville is now 4-2 on the year. All its victories have been when it counts, against league opponents, while its losses were to non-league opposition at away games. Hillsboro absorbed its second loss and is now 5-2 overall.

THE TIGERS made it a double win Saturday as the Kittens recorded a 53-44 win. The contest was close until the final minutes when Circleville caught fire and rolled to its nine point margin of victory.

Ted Kline led the Kittens with 12 points followed by teammates Davis and Wellington, with nine each. Ralph Sheldon was tops for Hillsboro with 12 points.

The score was tied at the end of the first period, 13-13. The Tigers took a one point lead at halftime, 24-23. Circleville steadily improved in the third quarter to lead, 39-33 as the buzzer sounded.

Lane Back From 'Heat' Of Cuba

CLEVELAND (AP)—Fresh from the heat of the Cuban revolution, General Manager Frank Lane was back in frigid Cleveland today to work with his front office staff on plans for the 1959 Cleveland Indians.

That staff has been reduced by two, Steve O'Neill, a scout-at-large since 1954, and Harrison Dillard, in public relations and farm club office work for nearly 10 years, were cut loose with the start of the new year.

O'Neill, at 67, has been in baseball nearly a half century. He caught for Cleveland from 1911 to 1923 and was tribe manager from 1935 to 1937 and Detroit Tigers' manager from 1943 to 1948. He returned to Cleveland as a coach in 1949.

Dillard, who starred in two Olympic games as a hurdler and dash man while he was employed by the Tribe, retired from track in 1956.

Lane went to Havana Dec. 27 to try to pick up some playing talent in the winter league and to sign Minnie Minoso. He reported that the three Indians playing ball there—Minoso, Dick Brown and Al Ciette—all were in a remote beach area and in no danger from revolutionary gunfire.

"Tommyguns in the hands of 16-year-old volunteers punched my ample midriff too many times for comfort," Lane said in a telegram to the ball club here after he flew into Miami Saturday from Havana.

"I kept thinking I was looking at a movie until 'whang' a bullet would hit the wall and I knew it wasn't a movie," Lane told a Miami newsman.

Ashville Defeats DuPont Unit, 65-60

The Ashville Lumber Co. yesterday afternoon handed DuPont a narrow 65-60 defeat in the Ashville High School gymnasium.

Jerry Riegel led the Ashville scoring with 19 points on jump shots in the corner. G. Tedrow and W. Myers, Ashville guards, hit from out front, scoring 13 each.

D. Timmons and N. Depugh rebounded well for DuPont and tallied from underneath, taking scoring honors with 20 points apiece.

Ashville travels to Orient tomorrow night for a 6 p. m. basketball contest.

Blackbourn Back With Marquette

MILWAUKEE (AP)—Lisle W. (Liz) Blackbourn, the man who coached Marquette University football teams from 1950 to 1953, was back on the job today after a lapse of five years.

And Marquette hopes he is the man who will lead the Warriors out of the football dumps. Marquette has won only 7 of 47 games since Blackbourn's departure in 1953.

"There is a good deal of work ahead," Blackbourn said. Blackbourn, 58, coached the Green Bay Packers for four seasons, winning 17 and losing 31.

He was fired after the 1957 season, then went to Carroll College in Waukesha, Wis., for a year and won 6 of 8 games.

Layne, Matson Shine In Hula Bowl Affair

HONOLULU (AP)—Bobby Layne and Ollie Matson, who passed up the Pro Bowl game, starred Sunday as a professional team beat a band of collegians 47-27 in the 13th Hula Bowl.

Layne, a Pittsburgh Steeler quarterback, threw five touchdown passes, one a 60-yarder that end Billy Howton of Green Bay turned into a 91-yard touchdown play.

Matson, a Chicago Cardinal, was a big ground gainer. He and San Francisco 49er Joe Perry took the ball 75 yards in five plays in one fourth quarter drive.

Cincy, Big O, Lose Pair, Face Mighty Bradley

Bearcats Lick Wounds After Tasting Defeat In Dixie Classic

By THE ASSOCIATED PRESS

Humiliated by two consecutive defeats in the Dixie Classic last week, Cincinnati and Big O, Oscar Robertson, jump right back into the fire tonight when they tangle with Bradley.

All last season, the Bearcats lost only three games. Bradley licked them early in the campaign. Then it was Oklahoma State and finally Kansas State in the NCAA tournament. They took Bradley over the second time around, however.

This is a big one for Robertson and company. Their pride has been hurt. More realistically, Bradley is rated the only team in the Missouri Valley Conference with the possible exception of St. Louis, with a chance of knocking Cincinnati out of the title.

The Braves also are undefeated, having raced past all eight of their opponents to date. They warmed up to their task by turning back Drake, 91-57, Saturday night.

Another worry for Cincinnati is the possibility of being knocked right out of the top 10 in the weekly Associated Press poll. None of the others in the select circle last week has lost more than one game and three—Kentucky, Auburn and Bradley—are undefeated.

Kentucky, riding along at the top of the heap with 11 victories—high in the nation—polished off Georgia Tech, 72-62, Saturday.

But Adolph Rupp's slick Wildcats may not have things easy this year. Already they're casting worried looks over their shoulder in the direction of Auburn. The Wildcats won the 1958 Southeastern Conference title by just one game over Auburn, which is about as thin as you can slice it.

The Plainsmen figure to make Mississippi their ninth straight victim tonight after dealing Mississippi State its first defeat, 97-66, Saturday.

Kansas State, No. 3 in the nation behind Kentucky and Cincinnati, has been the class of the Big 8 so far in non-league games and opens its loop season against Iowa State.

The same can't be said of Northwestern, which along with Michigan State, is the current co-favorite in the Big 10 race. The Wildcats barely edged Iowa, 80-77 in their league opener Saturday and Coach Bill Rohr observed that "we were lucky to get out alive."

Northwestern is ranked No. 6 and Michigan State No. 7 in the AP ratings. The Spartans had a close shave, too, nipping Indiana, the defending champion, 79-77.

Northwestern plays Michigan tonight and Michigan State goes against Iowa.

In the Atlantic Coast Conference, the main battle is developing between North Carolina and North Carolina State. They are running 4-5 in the AP poll and have almost identical records—8-1 for the Tar Heels and 9-1 for State.

The Tar Heels turned back Notre Dame, 69-54, in a nationally televised game Saturday.

After a week of activity in the Pacific Coast Conference, Southern California leads the parade with a 2-0 mark. Defending champion California has a 1-1 mark.

Texas A&M so far has justified its role as Southwest Conference favorite by clipping Southern Methodist, 65-63, Saturday to run its overall record to 9-1. In the Southern Conference, it's West Virginia (4-0) as usual at the top.

Idaho State, with a 9-2 record in nonleague play, is the big favorite in the Rocky Mountain Conference.

Utah, the favorite, helps open the Skyline Conference season against Montana Wednesday night.

Kingston Bops Eagles, 60-59; Unioto Tops Centralia, 80-64

Kingston Saturday night pulled the upset of the 1958-59 Ross County Basketball season with a tremendous 60-59 sweep Clarksburg in the finals of the Clarksburg Holiday Carnival.

The Clarksburg Eagles had previously defeated Kingston, 70-44, during league play on the Redskin court. Saturday, two different teams met, and the highly regarded Eagles suffered their second loss in 12 outings.

In the losers bracket of the tournament, Unioto blasted Centralia, 80-64, in a contest marred with fouls.

The Redskins trailed with five seconds left and Kingston in control of the ball. Kingston's Captain Bob Williams then stole the ball and drove for the winning two-pointer.

THIS WAS THE second straight night Williams had tallied the winning bucket in the final seconds. He turned the same trick last Monday in the opening game of the tourney, when he dunked a corner shot against Centralia in a sudden death play-off.

Kingston was down seven points with 2½ minutes left in the game. A time-out was called while the Redskins collected themselves for a final drive. Then they went out and downed a confident Clarksburg aggregation.

Kingston altered the expected trend of the contest in the first period when it raced to a 19-10 lead, hitting seven of eight field goals.

The Redskins continued to blaze the nets, leading by as much as 12 points in the second period before Clarksburg rallied, aided by its stupendous height.

The Eagles managed to tie up the game at halftime, 28-28. Four Kingston turnovers, which Clarksburg grabbed and scored, assisted the Eagles in their come-back drive.

The partisan Clarksburg crowd relaxed in the third canto as the Eagles powered to a 52-45 lead. The deadly shooting of Joe Bryant, Reisinger and Vollmer, from the outside, brought Clarksburg back into the game.

CLARKSBURG was unable to stand off Kingston's stretch drive, in which the Redskins outscored the Eagles, 15-7.

Kingston used a 3-2 zone defense until the final minutes when it went into a zone full court press. All during the game, the speedier Redskins repeatedly stole the ball from Clarksburg players and drove for scores.

Clarksburg employed 1-2-2 and 3-2 zone defenses. A smaller Kingston quintet battled Clarksburg evenly under the bankboards.

Kingston had its best night from the field, notching 28 of 55 attempts for 51 per cent. Clarksburg had a good night, hitting on 24 of 59 tries for 51 per cent.

From the foul line, Clarksburg held the advantage with a 58 per cent average, sinking 11 of 19 offerings. Kingston shot a poor 31 per cent, making four of 11 attempts.

A total of 25 fouls were called, 13 on Kingston and 12 on Clarksburg. Scoring honors went to Kingston's Emor, Carper with 21 points from the outside. Teammates, Williams and Tom Edwards, had 15 and 10 respectively.

OUTSTANDING UNDER the boards for the Redskins was Gene Sims who garnered 22 defensive rebounds and nine points. Bill Carman, Sim's replacement in the final minutes, grabbed three straight important rebounds.

Tops for Clarksburg were Bryant, Reisinger and Vollmer with 15, 14 and 14 points respectively.

The Eagles' Ater was an ace rebounder and dropped in 10 points. Kingston is now 7-4 on the season and Clarksburg is 10-2. The winning trophy was presented to Kingston by Jack Delong.

The Unioto-Centralia game was rough from the start as the two arch-rivals battled from the opening whistle to the final buzzer.

The Bulldogs fought on even terms with the Shermans the first half, but fell behind in the final two quarters as Unioto's height and experience widened the score.

Wayne Neff, Unioto, was top scorer for the night with 28 points from the side and on rebounds. Teammate, John Brown, hit 15 points from the side and guard, Jim Hooper, tallied 13 from out front.

CENTRALIA placed five men in double figures, but its well-balanced scoring attack was no match for the rangier Unioto five.

Chuck Weaver copped 14 points followed by Jerry Kutschback and Sonny Harrison with 13 each. The Bulldogs are now 5-6 on the year. Unioto stands 7-4.

Tigers Stretch SCOL Lead In Downing Hillsboro Five

By J. I. SMITH III
Herald Staff Writer

The Circleville Tigers Saturday night stretched their hold on first place in the South Central Ohio League to two games as they downed invading Hillsboro, 54-44.

If the Tigers had lost, they would have dropped out of first position with Hillsboro taking over the top spot. Instead, Circleville claims a 4-0 lead, while Hillsboro is next with a 3-2 record.

The Tigers displayed deliberate ball control and even more self control to defeat a hot tempered and sometimes unmanly Hillsboro unit.

Surprise of the night was the benching of the Indians' ace rebounder and the SCOL's leading scorer, Milton Bosworth. Hillsboro Coach Ray Oliver failed to play Bosworth the first half for missing several practices last week.

BOSWORTH came off the bench in the second half and tallied 10 points, but it will always be a point of conjecture whether Bosworth could have made the difference between a Hillsboro victory or defeat.

The Tigers took a 13-8 first quarter lead after the contest was tied, for the second time, at 4-4. Tiger Captain Don Rowland scored seven of his 15 total game points in this period on deadly set shots from the front court.

The first canto was a successful one for Circleville as it shot 54 per cent to Hillsboro's 33 per cent. The tables were reversed in the second quarter as the Indians rallied and fought to a 24-24 deadlock at half-time.

Circleville led by as much as seven points in this stanza but failed to rebound, which was the case the entire game, aided Hillsboro in knotting the count.

Too often, the Tiger aggression stood and watched while Rowland attempted a field goal. Only the seven points, of 10 scored in the game by Larry Hannahs, saved Circleville from falling behind at intermission.

Hillsboro proved to have more scrap and Tiger personal fouls provided the Indians with eight of 16 points registered in the second canto.

AFTER THE LEAD exchanged hands three times early in the third period, Hillsboro jumped to a four point margin. Tiger Asa Elsea rallied the Circleville forces with six of his 10 points as the Tigers trailed by one point at the end of this stanza, 36-37.

Bosworth tallied eight points on

accurate jump shots to spell the difference. The Tigers employed a man-to-man defense during the game while Hillsboro countered with a 2-3 zone. Both quintets kept the other to the outside.

The fourth quarter was the most rousing of the battle, as the score was tied four times before Circleville went ahead to stay. The Tigers stopped Bosworth and his teammates with just two field goals.

Circleville notched 12 free throws in the final period as Hillsboro became rattled and fell behind, forcing them into a man-to-man defense to get the ball.

The Tigers remained "cool" under a barrage of Indian temperamental "flare-ups" and failed to respond when a Hillsboro player tried a little too hard. Mark this victory to sportsmanship on the part of Circleville.

Hillsboro shot 12 per cent from the field in the fourth period while Circleville hit for 27 per cent. Although Hillsboro was the better rebounding unit, Circleville's ball

control type of game "paid-off in spades" in the waning minutes of the fray.

CIRCLEVILLE wound up with a 37 per cent shooting average from the field, sinking 19 of 51 attempts. Hillsboro finished with a meager 28 per cent on 14 of 40 tries.

The teams scored the same number of times from the foul line, 16 each. Hillsboro held the percentage edge here, with a sizzling 69 per cent as the Tigers shot 57 per cent.

The game was marred by numerous fouls, especially as the contest went into its final minutes. A total of 35 were called, 20 on Hillsboro and 15 on the Tigers.

Turnovers were few. Hillsboro had eight and Circleville committed seven. Scoring honors went to Tigers Rowland and Shadley with 15 each. Shadley sent seven points through the nets in the last period. He tallied most of his markers from the side.

Top man for Hillsboro was Perin Johnson with 11 points followed by teammate Bosworth with 10. Bosworth was averaging about 20 points per game until Saturday night.

Circleville is now 4-2 on the year. All its victories have been when it counts, against league opponents, while its losses were to non-league opposition at away games. Hillsboro absorbed its second loss and is now 5-2 overall.

THE TIGERS made it a double win Saturday as the Kittens recorded a 53-44 win. The contest was close until the final minutes when Circleville caught fire and rolled to its nine point margin of victory.

Ted Kline led the Kittens with 12 points followed by teammates Davis and Wellington, with nine each. Ralph Sheldon was tops for Hillsboro with 12 points.

The score was tied at the end of the first period, 13-13. The Tigers took a one point lead at half-time, 24-23. Circleville steadily improved in the third quarter to lead, 39-33 as the buzzer sounded.

WJ used a man-to-man defense while the Trojans employed a 1-2-2 zone. According to Darby Coach Ned Reichelderfer, the Trojans played their best first half ball this season.

DARBY GUARD Tommy Liff, captured scoring honors with 25 points from the outside and on lay-ups off the fast break that worked well for the Trojans. Alvin Cox trailed Liff in the scoring with 17 points from the side and on the fast break.

Parson led WJ with 14 points, garnered on side court shooting. The Trojans led 62-34 at the third quarter mark. A total of 39 fouls were called, 23 on WJ and 16 on Darby.

The Trojans shot 65 per cent from the free throw line, making 21 of 32 attempts. WJ pumped in 15 of 26 offerings for 37 per cent.

Darby swept the evening of basketball with a 43-33 reserve win. Jerry Vance led the Trojan following with 12 points followed by teammates Roger Drummond and Eddie Hook, with 11 and 10 points respectively. Campbell was high man for WJ with 12 points.

Knicks Move Up On Leaders in Pro Cage Loop

By THE ASSOCIATED PRESS

The New York Knickerbockers, bolstered by a pair of weekend victories, today moved within shooting distance of the leading Boston Celtics in the Eastern Division race of the National Basketball Assn.

While the Celtics split a pair, the Knicks produced second half rallies to defeat the Detroit Pistons 106-102 Saturday night and the St. Louis Hawks 122-114 Sunday.

The triumphs enabled New York to move to within three games of the Celts, who bounced back to beat Cincinnati 111-108 Sunday after bowing to St. Louis 116-110 Saturday.

In other games Sunday, Minneapolis walloped Philadelphia 111-95 in a nationally televised tilt and the Syracuse Nationals trounced Detroit 116-94.

HAWKS' HOT-SHOT - - - By Alan Maver

CLIFF HAGAN NOW IN HIS 3RD SEASON WITH THE N.B.A. CHAMPION ST. LOUIS HAWKS,

IS A GOOD BET TO BECOME ONE OF THE SPORTS SUPER STARS IF HE CONTINUES THE IMPROVEMENT HE SHOWED LAST YEAR.

CLIFF RAISED HIS PER GAME SCORING AVERAGE LAST SEASON AND WAS NO. 2 IN ACCURACY FROM THE FIELD IN THE TITLE PLAYOFF FINALS.

Darby 24 25 13 15 - 77
West Jefferson 12 8 14 11 - 45
Referees: C. Swartz and R. Sheldon
Reserve Game Darby 43; West Jefferson 33

While the Celtics split a pair, the Knicks produced second half rallies to defeat the Detroit Pistons 106-102 Saturday night and the St. Louis Hawks 122-114 Sunday.

The triumphs enabled New York to move to within three games of the Celts, who bounced back to beat Cincinnati 111-108 Sunday after bowing to St. Louis 116-110 Saturday.

In other games Sunday, Minneapolis walloped Philadelphia 111-95 in a nationally televised tilt and the Syracuse Nationals trounced Detroit 116-94.

THE TIGERS made it a double win Saturday as the Kittens recorded a 53-44 win. The contest was close until the final minutes when Circleville caught fire and rolled to its nine point margin of victory.

Ted Kline led the Kittens with 12 points followed by teammates Davis and Wellington, with nine each. Ralph Sheldon was tops for Hillsboro with 12 points.

The score was tied at the end of the first period, 13-13. The Tigers took a one point lead at half-time, 24-23. Circleville steadily improved in the third quarter to lead, 39-33 as the buzzer sounded.

WJ used a man-to-man defense while the Trojans employed a 1-2-2 zone. According to Darby Coach Ned Reichelderfer, the Trojans played their best first half ball this season.

DARBY GUARD Tommy Liff, captured scoring honors with 25 points from the outside and on lay-ups off the fast break that worked well for the Trojans. Alvin Cox trailed Liff in the scoring with 17 points from the side and on the fast break.

Parson led WJ with 14 points, garnered on side court shooting. The Trojans led 62-34 at the third quarter mark. A total of 39 fouls were called, 23 on WJ and 16 on Darby.

The Trojans shot 65 per cent from the free throw line, making 21 of 32 attempts. WJ pumped in 15 of 26 offerings for 37 per cent.

Darby swept the evening of basketball with a 43-33 reserve win. Jerry Vance led the Trojan following with 12 points followed by teammates Roger Drummond and Eddie Hook, with 11 and 10 points respectively. Campbell was high man for WJ with 12 points.

Cincy, Big O, Lose Pair, Face Mighty Bradley

Bearcats Lick Wounds After Tasting Defeat In Dixie Classic

By THE ASSOCIATED PRESS

Humiliated by two consecutive defeats in the Dixie Classic last week, Cincinnati and Big O, Oscar Robertson, jump right back into the fire tonight when they tangle with Bradley.

All last season, the Bearcats lost only three games. Bradley licked them early in the campaign. Then it was Oklahoma State and finally Kansas State in the NCAA tournament. They took Bradley over the second time around, however.

This is a big one for Robertson and company. Their pride has been hurt. More realistically, Bradley is rated the only team in the Missouri Valley Conference with the possible exception of St. Louis, with a chance of knocking Cincinnati out of the title.

The Braves also are undefeated, having rated past all eight of their opponents to date. They warmed up to their task by turning back Drake, 91-57, Saturday night.

Another worry for Cincinnati is the possibility of being knocked right out of the top 10 in the weekly Associated Press poll. None of the others in the select circle last week has lost more than one game and three—Kentucky, Auburn and Bradley—are undefeated.

Kentucky, riding along at the top of the heap with 11 victories—high in the nation—polished off Georgia Tech, 72-62, Saturday.

But Adolph Rupp's slick Wildcats may not have things easy this year. Already they're casting worried looks over their shoulder in the direction of Auburn. The Wildcats won the 1958 Southeastern Conference title by just one game over Auburn, which is about as thin as you can slice it.

The Plainsmen figure to make Mississippi their ninth straight victim tonight after dealing Mississippi State its first defeat, 97-66, Saturday.

Kansas State, No. 3 in the nation behind Kentucky and Cincinnati, has been the class of the Big 8 so far in non-league games and opens its loop season against Iowa State.

The same can't be said of Northwestern, which along with Michigan State, is the current co-favorite in the Big 10 race. The Wildcats barely edged Iowa, 80-77, in their league opener Saturday and Coach Bill Rohr observed that "we were lucky to get out alive."

Northwestern is ranked No. 6 and Michigan State No. 7 in the AP ratings. The Spartans had a close shave, too, nipping Indiana, the defending champion, 79-77.

Northwestern plays Michigan tonight and Michigan State goes against Iowa.

In the Atlantic Coast Conference, the main battle is developing between North Carolina and North Carolina State. They are running 4-5 in the AP poll and have almost identical records—8-1 for the Tar Heels and 9-1 for State.

The Tar Heels turned back Notre Dame, 69-54, in a nationally televised game Saturday.

After a week of activity in the Pacific Coast Conference, Southern California leads the parade with a 2-0 mark. Defending champion California has a 1-1 mark.

Texas A&M so far has justified its role as Southwest Conference favorite by clipping Southern Methodist, 65-63, Saturday to run its overall record to 9-1. In the Southern Conference, it's West Virginia (4-0) as usual at the top.

Idaho State, with a 9-2 record in nonleague play, is the big favorite in the Rocky Mountain Conference.

Utah, the favorite, helps open the Skyline Conference season against Montana Wednesday night.

Fullbacks Win Laurels in Senior Bowl

MOBILE, Ala. (AP)—Two of the finest passers in the land were on the field. But two hard running fullbacks took the laurels in Saturday's 10th annual Senior Bowl game, won by the South 21-12.

Coach Paul Brown of the Cleveland Browns had Baylor's Buddy Humphrey at the South controls in the nationally televised game. Lee Grosscup of Utah was the starter at quarterback for North Coach Joe Kuharich of Notre Dame.

Humphrey was the nation's leading passer this season. Grosscup was No. 1 a year ago.

But it was Theron Sapp of Georgia and Norm Odyniec of Notre Dame who won honors. They both scored TDs and tied in the poll of sports writers for most valuable player.

Brown found his ground game working so well that Humphrey tried only 11 passes, completing four for 97 yards and a touchdown. Grosscup connected on 14 of 26 passes for 168 yards.

The biggest yardage was amassed by the workhorse fullbacks. The 5-11, 180-pound Odyniec ran up 192 yards on 25 carries for a 7.7 average. Sapp, a 5-11, 200-pounder, got 158 on 23 cracks for 6.9 yards per carry. Most of the yardage came the hard way between tackle.

The other score came in the first quarter when Humphrey passed 20 yards to end Bob Pepe of North Carolina State in the end zone to cap a 67-yard drive after the opening kickoff.

Ex-Gridder's Hopes High For Horse

By THE ASSOCIATED PRESS

As long as the conditions are "weather clear, track fast," Hillsdale probably will earn money for his owner, C. W. Smith, former Georgia Tech and Chicago Bears football player.

Hillsdale, now a 4-year-old, beat the famous Round Table Saturday by the slim margin of a head in the \$56,400 San Carlos Handicap at Santa Anita.

Smitty, a 240-pounder who played from 1936-39 for Tech and later was with the Bears three years, paid Mrs. Helen Kellogg \$25,000 for Hillsdale in December of 1957.

The new owner owns and runs an engineering company with offices in Detroit and Los Angeles which furnishes designs for automobiles, missiles and jet engines.

Last spring Hillsdale was sent to Hollywood Park where he won the Will Rogers Stakes and the El Dorado Handicap. Strong Bay nosed him out in the \$100,000 Westerner.

Smith tried to get some of the big purse in the American Derby at Chicago. But Nadie won, and Hillsdale finished sixth. Then, before the homefolk in Detroit, Hillsdale copped the Michigan Derby, went to Atlantic City and won the Boardwalk Handicap, and wound up the year Dec. 27 by easily taking the Malibu Stakes at Santa Anita.

Round Table, owned by the Kerr Stables, had an excuse—weight. The world's leading money winning horse, making his initial start since he won the \$100,000 Hawthorne Gold Cup at Chicago Oct. 11, packed 132 pounds to only 115 for Hillsdale.

Kingston Bops Eagles, 60-59; Unioto Tops Centralia, 80-64

Kingston Saturday night pulled the upset of the 1958-59 Ross County Basketball season with a tremendous 60-59 sweep Clarksburg in the finals of the Clarksburg Holiday Carnival.

The Clarksburg Eagles had previously defeated Kingston, 70-44, during league play on the Redskin court. Saturday, two different teams met, and the highly regarded Eagles suffered its second loss in 12 outings.

In the losers bracket of the tournament, Unioto blasted Centralia, 80-64, in a contest marred with fouls.

The Redskins trailed with five seconds left and Clarksburg in control of the ball. Kingston's Captain Bob Williams then stole the ball and drove for the winning two-point shot.

THIS WAS THE second straight night Williams had tallied the winning bucket in the final seconds. He turned the same trick last Monday in the opening game of the tourney, when he dunked a corner shot against Centralia in a sudden death play-off.

Kingston was down seven points with 2 1/2 minutes left in the game. A time-out was called while the Redskins collected themselves for a final drive. Then they went out and downed a confident Clarksburg aggregation.

Kingston altered the expected trend of the contest in the first period when it raced to a 19-10 lead, hitting seven of eight field goals.

The Redskins continued to blaze the nets, leading by as much as 12 points in the second period before Clarksburg rallied, aided by its stupendous height.

The Eagles managed to tie up the game at halftime, 28-28. Four Kingston turnovers, which Clarksburg grabbed and scored, assisted the Eagles in their come-back drive.

The partisan Clarksburg crowd relaxed in the third canto as the Eagles powered to a 52-45 lead. The deadly shooting of Joe Bryant, Reisinger and Vollmer, from the outside, brought Clarksburg back into the game.

CLARKSBURG was unable to stand off Kingston's stretch drive, in which the Redskins outscored the Eagles, 15-7.

Kingston used a 3-2 zone defense until the final minutes when it went into a zone full court press. All during the game, the speedier Redskins repeatedly stole the ball from Clarksburg players and drove for scores.

Clarksburg employed 1-2-2 and 3-2 zone defenses. A smaller Kingston quintet battled Clarksburg evenly under the bankboards.

Kingston had its best night from the field, notching 28 of 55 attempts for 51 per cent. Clarksburg had a good night, hitting on 24 of 59 tries for 51 per cent.

From the foul line, Clarksburg held the advantage with a 58 per cent average, sinking 11 of 19 offerings. Kingston shot a poor 31 per cent, making four of 11 attempts.

A total of 25 fouls were called, 13 on Kingston and 12 on Clarksburg. Scoring honors went to Kingston's Emory Harper with 21 points from the outside. Teammates, Williams and Tom Edwards, had 15 and 10 respectively.

OUTSTANDING UNDER the boards for the Redskins was Gene Sims who garnered 22 defensive rebounds and nine points. Bill Carman, Sim's replacement in the final minutes, grabbed three straight important rebounds.

Tops for Clarksburg were Bryant, Reisinger and Vollmer with 15, 14 and 14 points respectively.

The Eagles' Ater was an ace rebounder and dropped in 10 points. Kingston is now 7-4 on the season and Clarksburg is 10-2. The winning trophy was presented to Kingston by Jack Delong.

The Unioto-Centralia game was rough from the start as the two arch-rivals battled from the opening whistle to the final buzzer.

The Bulldogs fought on even terms with the Sheremans the first half, but fell behind in the final two quarters as Unioto's height and experience widened the score.

Wayne Neff, Unioto, was top scorer for the night with 28 points from the side and on rebounds. Teammate, John Brown, hit 15 points from the side and guard, Jim Hooper, tallied 13 from out front.

CENTRALIA placed five men in double figures, but its well-balanced scoring attack was no match for the rangier Unioto five.

Chuck Weaver copped 14 points followed by Jerry Kutschback and Sonny Harrison with 13 each. The Bulldogs are now 5-6 on the year. Unioto stands 7-4.

Dems May Boost Defense Budget

WASHINGTON (AP) — President Eisenhower had notice today Democrats are ready to increase his figures if they feel defense spending has been cut too sharply in budget-balancing efforts.

In advance of a bipartisan White House briefing on defense and foreign policies, Democrats, who control the new Congress by top-heavy margins, already were challenging the adequacy of the President's 77-billion-dollar budget.

Invited to the White House briefing were 26 Senate and House members, including leaders of both parties there and senior members of the Armed Services, Appropriations, and Foreign Affairs committees.

Democrats have renewed their calls for more U.S. action in the space field in the wake of the Soviet Union's successful cosmic rocket shot. Senate Democratic Leader Lyndon B. Johnson of Texas said the Soviet accomplishment had emphasized the task of Congress in meeting what he called "some of the greatest challenges in our history."

Sen. Mike Mansfield of Montana, the assistant Democratic leader, already has attacked Eisenhower's contention the budget can be balanced at 77 billion dollars. Mansfield said revenue for the new fiscal year beginning July 1 won't exceed 75 1/2 billion dollars, even if spending is held down.

Eisenhower said the new budget will provide some additional money for defense purposes over the \$40,800,000,000 of the current year, but gave no figure.

Rep. George Manon (D-Tex) chairman of the House Subcommittee on Defense Appropriations, said Sunday he thinks Eisenhower will suggest about 42 billion dollars and added:

"I don't think that will be too much. It could be too little. The emphasis should be on advanced weapons projects. I want to be sure that no advanced weapons projects are sacrificed for purely monetary reasons."

Although Republican leaders have indicated they expect to support the President's efforts to head off inflation by limiting government spending, there was some uneasiness on the GOP side about the defense totals.

Sen. John Sherman Cooper, candidate of a GOP liberal group for party floor leader, said Congress has its own responsibility to determine the amounts needed for defense. He said Eisenhower's word is not necessarily final on this score.

U.S. Investors Ponder Their Holdings Abroad

Cuban Revolution Only One of Many Hazards Under Study

By SAM DAWSON

AP Business News Analyst NEW YORK (AP)—The Cuban revolution is only one of a multitude of uncertainties today facing Americans with investments and trade abroad.

In all parts of the globe 1959 should offer answers to questions now baffling American business planners.

Here is the stake:

American private investment abroad is approaching 37 billion dollars, the Department of Commerce reports. The total exports of commercial merchandise by American concerns in 1958 is estimated at 17 billion dollars of the National Foreign Trade Council — and with luck it should rise in 1959.

Here are some of the trouble spots:

CUBA: Americans have about one billion dollars invested in the sugar, oil and tourist industries. The uncertainty: what the attitude of the new Castro government will be toward outsiders. For the sugar trade and American consumers the question: Will the approaching sugar harvest enter world trade on schedule, keeping American refineries busy and the price of sugar here stable?

VENEZUELA: The old 50-50 split of profits between American and other oil companies and the government has been changed to 40-60. U.S. concerns are protesting getting the short end of the deal and the final outcome is still up in the air. Worrying them as much as anything is the effect this example could have on their vast holdings in the —

MIDDLE EAST: Already some inroads have been made on the traditional 50-50 arrangement; more are being talked up. Also furrowing the brows of oilmen is the general political unrest, Nasserism, communism and the Israeli question keep Americans on an almost daily alert.

INDONESIA: Political strife has had the oil and rubber companies on the defensive. All is quiet at the moment but Americans are not sure for how long.

ARGENTINA: How to develop the oil industry there is just part of a general fiscal crisis, with Americans in the thick of it.

BRAZIL: A monetary crisis keeps American companies watchful. The coffee surplus — and what's to be done about it — will affect both American roasters and consumers.

THE COMMON MARKET: France, West Germany, Italy,

Nothing to Crow About

ORANGE, N. J. (AP)—James Cook is fond of animals. So is somebody else.

Cook recently bought a pig to keep in his backyard. Some one stole it. Then he bought a dozen ducks. Some one stole them. Then a possum which promptly had a litter of 10. The whole family was swiped.

Finally, he bought 10 chicks which grew up into nine hens and a rooster. If you think some one stole all of them, you're wrong. They left him the rooster.

Holland, Belgium and Luxembourg are starting a lengthy process of lowering tariff walls among themselves and presenting a common tariff front to outsiders. Americans fear that will make it harder for them to sell in the six nations, and will make it easier for the six to take world markets away from Americans. U.S. companies also are wondering if they should open more plants inside the common market.

RUSSIA: The uncertainty here is global now. The Soviets have declared a trade war on the United States. They are out to take world markets from us wherever they can and when it suits their policies to try.

By SAM DAWSON

AP Business News Analyst

NEW YORK (AP)—The Cuban revolution is only one of a multitude of uncertainties today facing Americans with investments and trade abroad.

In all parts of the globe 1959 should offer answers to questions now baffling American business planners.

Here is the stake:

American private investment abroad is approaching 37 billion dollars, the Department of Commerce reports. The total exports of commercial merchandise by American concerns in 1958 is estimated at 17 billion dollars by the National Foreign Trade Council — and with luck it should rise in 1959.

Here are some of the trouble spots:

CUBA: Americans have about one billion dollars invested in the sugar, oil and tourist industries. The uncertainty: what the attitude of the new Castro government will be toward outsiders. For the sugar trade and American consumers the question: Will the approaching sugar harvest enter world trade on schedule, keeping American refineries busy and the price of sugar here stable?

VENEZUELA: The old 50-50 split of profits between American and other oil companies and the government has been changed to 40-60. U.S. concerns are protesting getting the short end of the deal and the final outcome is still up in the air. Worrying them as much as anything is the effect this example could have on their vast holdings in the —

MIDDLE EAST: Already some inroads have been made on the traditional 50-50 arrangement; more are being talked up. Also furling the brows of oilmen is the general political unrest. Nationalism, communism and the Israeli question keep Americans on an almost daily alert.

INDONESIA: Political strife has had the oil and rubber companies on the defensive. All is quiet at the moment but Americans are not sure for how long.

ARGENTINA: How to develop the oil industry there is just part of a general fiscal crisis, with Americans in the thick of it.

BRAZIL: A monetary crisis keeps American companies watchful. The coffee surplus — and what's to be done about it — will affect both American roasters and consumers.

THE COMMON MARKET: France, West Germany, Italy,

challenging the adequacy of the President's 77-billion-dollar budget.

Invited to the White House briefing were 26 Senate and House members, including leaders of both parties there and senior members of the Armed Services, Appropriations, and Foreign Affairs committees.

Democrats have renewed their calls for more U.S. action in the space field in the wake of the Soviet Union's successful cosmic rocket shot. Senate Democratic Leader Lyndon B. Johnson of Texas said the Soviet accomplishment had emphasized the task of Congress in meeting what he called "some of the greatest challenges in our history."

Sen. Mike Mansfield of Montana, the assistant Democratic leader, already has attacked Eisenhower's contention the budget can be balanced at 77 billion dollars. Mansfield said revenue for the new fiscal year beginning July 1 won't exceed 75½ billion dollars, even if spending is held down.

Eisenhower said the new budget will provide some additional money for defense purposes over the \$40,800,000,000 of the current year, but gave no figure.

Rep. George Manon (D-Tex) chairman of the House Subcommittee on Defense Appropriations, said Sunday he thinks Eisenhower will suggest about 42 billion dollars and added:

"I don't think that will be too much. It could be too little. The emphasis should be on advanced weapons projects. I want to be sure that no advanced weapons projects are sacrificed for purely monetary reasons."

Although Republican leaders have indicated they expect to support the President's efforts to head off inflation by limiting government spending, there was some uneasiness on the GOP side about the defense totals.

Sen. John Sherman Cooper, candidate of a GOP liberal group for party floor leader, said Congress has its own responsibility to determine the amounts needed for defense. He said Eisenhower's word is not necessarily final on this score.

Nothing to Crow About

ORANGE, N. J. (AP)—James Cook is fond of animals. So is somebody else.

Cook recently bought a pig to keep in his backyard. Some one stole it. Then he bought a dozen ducks. Some one stole them. Then a possum which promptly had a litter of 10. The whole family was swiped.

Finally, he bought 10 chicks which grew up into nine hens and a rooster. If you think some one stole all of them, you're wrong. They left him the rooster.

Holland, Belgium and Luxembourg are starting a lengthy process of lowering tariff walls among themselves and presenting a common tariff front to outsiders. Americans fear that will make it harder for them to sell in the six nations, and will make it easier for the six to take world markets away from Americans. U.S. companies also are wondering if they should open more plants inside the common market.

RUSSIA: The uncertainty here is global now. The Soviets have declared a trade war on the United States. They are out to take world markets from us wherever they can and when it suits their policies to try.

U.S. Said 'Lucky' In Cuba Relations

HAVANA (AP) — The United States has been fairly lucky so far with the Cuban revolution.

The big neighbor to the north is still popular with the Cubans. But some of that popularity, as well as prestige elsewhere in Latin America, likely will be lost if Washington drags its feet about recognizing the new provisional government of Cuba.

By banning the shipment of arms to Fulgencio Batista's government during the revolution, the United States seriously hurt the dictator's cause. In Cuba it was considered the United States actually had sided with Fidel Castro's rebels, particularly since smuggled arms continued to stream steadily to the rebels from U.S. sources.

That built up goodwill for the U.S. government. But Washington likely would surrender some of that goodwill if it lets the Soviet Union and other Communist countries grab the distinction of being the first to recognize the new regime.

The United States has seldom in modern history been on the side of popular revolution in the non-Communist world. And it has had little hesitation in the past in recognizing regimes brought to power through military coups d'etat. American action in Cuba will be watched throughout Latin America as an indication of whether Washington learned anything from the

riots that greeted Vice President Nixon in Venezuela.

There is no point now in Washington worrying about whether Communist elements are involved in the revolution. The rebel leaders have indicated they intend to keep the Reds at arms' length.

There can be no doubt about the popularity of Castro's revolution. The depths of the hatred of the Cuban people for Batista, his dictatorship and the dreary history of corruption on a fabulous scale has to be seen to be believed.

The new government is starting off on an enormous wave of popular support. Failure by the United States to encourage it—indeed to offer it help and guidance—is certain to be deeply resented.

Resident's Sister Named Pt. Clinton Woman of the Year

Mrs. Juel Aeed Cover, Port Clinton, sister of Mrs. Clinton Strawser, 119 Hayward Ave., was recently named Port Clinton's Woman of the Year.

Mrs. Cover is editor of the Port Clinton Daily News. In 1945 she was stricken with multiple sclerosis and told by her doctors to return home and remain in a wheel chair the rest of her life.

Instead, Mrs. Cover battled this dreaded disease and rose to become editor of a daily newspaper. She is also executive editor of the "Round Robin", a bi-monthly news sheet distributed to 135 multiple sclerosis members.

Mrs. Cover is a past officer and board member of the Newspaper Women's Assn. having won a number of awards, including the triple entry award.

Mrs. Cover has been completely paralyzed three times in past years but is still able to go to her office daily, in a walker she named "Esmeralda."

Two Injured In Collision

Two passengers were injured when two cars collided at 12:10 p. m. yesterday at Routes 56 and 159 about eight miles southeast of here.

Taken to Berger Hospital were Dorothy Tatman, 38, Washington C. H., and Eva Kelly, 38, Ashland, Ky. Mrs. Tatman suffered a fractured right arm and Mrs. Kelly was treated for head injuries.

Mrs. Tatman was a passenger in a car driven by Phillip H. Tatman, 46, Washington C. H. Mrs. Kelly was a passenger in the auto operated by Fred A. Kelly, 50, Ashland, Ky.

Deputy Sheriff Dwight Radcliff said Tatman's car was headed east on Route 56. Kelly was traveling south on Route 159.

Kelly said he stopped at the intersection but proceeded on when he saw no traffic. The cars collided in the intersection.

Deputy Radcliff said Kelly was cited for failure to yield the right of way. Both cars were heavily damaged.

Driver Is Cited On OMVI Charge

A motorist accused of driving under the influence of intoxicants was included on Saturday's Circleville Municipal Court docket.

The charge was against Stanley J. Walk, 26, of 285 Lewis Road. The court imposed a fine of \$100 and costs, three days in jail and six months suspension of driver's license. He was arrested by city police.

Lawrence Addington, 24, Creola, O., was fined \$20 and costs for speeding at 70 miles per hour in a 50 mile zone. He was arrested by the State Highway Patrol.

Russell Clevenger Jr., 21, Route 2, Ashville, was fined \$25 and costs for failure to have assured clear distance ahead. He was cited by the sheriff's department.

Morose Moose
BLAINE LAKE, Sask. (AP)—Fred Larosse and his father testify that moose are not exactly friendly in the water. They were crossing Shell Lake when a swimming moose capsized their boat.

Husband of Former Circleville Girl Killed in Mishap

The husband of a former Circleville woman, Marion Cecil Long, 28, Jeffersonville, Fayette County, was killed in an automobile accident yesterday on Route 22 about four miles west of Washington C. H.

Mr. Long was the husband of the

former Daisy Boyer, daughter of Mr. and Mrs. Thomas Boyer, 115 E. Mill St. The couple had two daughters and a son.

Mr. Long's father, Cecil Long, also was killed in the accident, and a brother, Alvin, is listed in critical condition in Fayette Memorial Hospital.

Double private services are scheduled for 2 p. m. Tuesday at Little's Funeral Home, Jeffersonville. The Rev. Himes will officiate. Friends may call at the funeral home after noon today.

Ferry Proposed

PRINCE RUPERT, B. C. (AP)—A six-times weekly ferry service between here and Juneau, Alaska, with intermediate stops, has been recommended in a report for the Alaska Highway and Public Works Department. The report says the system would be self-supporting after only a few years.

Too Chilly after All

HUTCHINS, Tex. (AP)—R. W. Higginbotham, 28, of Dallas decided 9 degree weather wasn't too cold for duck hunting Sunday. He rowed out to a blind and waited vainly for ducks. When he decided to return, it took two friends and sheriff's deputies to break his boat out of the ice.

And it has had little hesitation in the past in recognizing regimes brought to power through military coups d'etat. American action in Cuba will be watched throughout Latin America as an indication of whether Washington learned anything from the

'Missing' Girl Found To Be Just Taking Nap

AKRON, Ohio (AP)—A girl reported missing from her home here Sunday was found several hours later at a neighbor's house where she had taken a nap.

Seven-year-old Linda Marie Selmon, daughter of Mrs. Lucy G. Selmon, failed to return home after she went out to play shortly after noon.

A search for the child was centered around Summit Lake, about a block from the Selmon home.

riots that greeted Vice President Nixon in Venezuela.

There is no point now in Washington worrying about whether Communist elements are involved in the revolution. The rebel leaders have indicated they intend to keep the Reds at arms' length.

There can be no doubt about the popularity of Castro's revolution. The depths of the hatred of the Cuban people for Batista, his dictatorship and the dreary history of corruption on a fabulous scale has to be seen to be believed.
